

## Circuit Protection & Power Distribution Catalogue 6th Edition

# PROLEC

*Distributing Your Power*

Prolec's range of genuine OEM approved circuit protection and power distribution products have been designed and tested to meet the demands of today and requirements of tomorrow. Whether that be on the highway, off road, in the field, on the battlefield, underground or on the water, Prolec has a suitable product solution for your application.

We are proud to represent some of the world's leading circuit protection and power distribution manufacturers whose products meet global industry standards and are manufactured in quality accredited facilities from materials are sourced from ethical suppliers whom have corporate governance, environmental and social policies. Prolec continues to invest in our people and inventory to ensure we offer the very best products and customer service.

[www.prolecproducts.com.au](http://www.prolecproducts.com.au)

Prolec proudly represents the worlds leading international brands of genuine, quality power distribution products used by major manufacturers around the world. These brands design, test and manufacture products under strict quality guideline which are then approved to recognised international standards. The majority of products are manufactured using environmentally compliant materials which meet RoHS and Reach standards. Manufacturers data sheets are also available upon request.

**MEMBER ORGANIZATIONS**

Prolec is a proud supporter and member of the following industry organisations which are the voice for automotive industry which includes component design, parts manufacturers, wholesalers, distributors, independent service and repair workshops and retailers.

**Driverless**

**Electric**

### THE COMPETITION

Formula SAE is the world's largest student engineering design competition. Students from Universities all around the world design, manufacture, test and compete with formula style racecars.

### COMPETITION STRUCTURE

Formula Student is divided into distinct classes; Combustion, Driverless and Electric. At competitions each car competes separately and is judged in two types of events, Dynamic and Static. Static events allow the team to demonstrate their knowledge behind the development of the cars and test industry skills such as entrepreneurialism, financial acumen and the holistic engineering design process behind the cars. Dynamic events are the culmination of the design process, testing the performance of the cars in a variety of scenarios. These events require more than just the quickest car; they are a test of reliability, efficiency and driver skill.

### MONASH MOTORSPORT

Last year, the team from Monash Motorsport (MMS) entered 2 cars in the competition; a petrol car and electric car. This year, the team entered 3 cars; a petrol car and two electric cars, one of which is autonomous. For the latest news from Monash Motorsport, visit their Facebook page: [www.facebook.com/monashmotorsport](http://www.facebook.com/monashmotorsport)

#### Formula SAE-A Team 2019 MMS Results:

- 1st Place - Electric Vehicle
- 1st Place - Internal Combustion Vehicle

#### Formula Student Sydney 2020 MMS Results:

- 1st Place - Combined Overall Result
- 1st Place - Endurance Combustion
- 2nd Place - Acceleration Combustion
- 1st Place - Autocross Combustion
- 2nd Place - Skidpad Combustion
- 3rd Place - Technical Presentation
- 1st Place - Sponsorship Presentation

# Fuses, Fuse Kits & Fuse Pullers

The original and still the best.

Fuse Assortment Caddy 5 & 10 Tray	43

# FUSE SELECTION GUIDE

Fuse Type	Characteristic	Amperage Range	I.R. @ Voltage	Ignition Protected	Ingress Rating	Page
SFE	Fast & Slow	50mA to 16A	1.5kA at 250V	-	-	10
AGC	Fast	1A to 35A	TBA, 32VDC	-	-	10
1AG & 7AG	Fast	500mA to 35A	TBA, 32VDC	-	-	10
3AG, 3AB	Fast & Slow	200mA to 35A	Varies by rating & speed	-	-	11
AGU / 5AG	Fast	10A to 60A	TBA, 32VDC	-	-	12
GBC	Fast	5A to 25A	TBA, 32VDC	-	-	12
Multimeter Fuses	Fast	630mA to 20A	Varies	-	-	12
Micro2	Fast	5A to 30A	1kA at 32VDC	-	-	13
Micro3	Fast	5A to 15A	1kA at 32VDC	-	-	13
Low Pro. Minifuse	Fast	2A to 30A	1kA at 58VDC	-	-	14
Minifuse - 32V	Fast	2A to 30A	1kA at 32VDC	-	-	15
Minifuse - 58V	Fast	3A to 30A	1kA at 58VDC	-	-	16
Minifuse - 125V	Fast	3A to 15A	1kA at 125VDC	-	-	^
Autofuse - 32V	Fast	1A to 40A	1kA at 32VDC	-	-	17
Autofuse - 58V	Fast	0.5A to 40A	1kA at 58VDC	Ign.Pro*	-	^
Autofuse - 80V	Fast	0.5A to 40A	1kA at 80VDC	Ign.Pro*	-	16
Maxifuse - 32V	Slow	20A to 100A	1kA at 32VDC	-	-	18
Maxifuse - 58V	Slow	20A to 100A	1kA at 58VDC	-	-	19
Maxifuse - 80V	Slow	20A to 100A	1kA at 80VDC	-	-	^
Maxi Plus - 32V	Slow	25A to 60A	1kA at 32VDC	-	-	19
M8 Compact	Slow	30A to 80A	1kA at 32VDC	-	-	^
MCase - 32V	Slow	15A to 40A	1kA at 32VDC	-	-	20
Mcase + Slot 32V	Slow	15A to 60A	1kA at 32VDC	-	-	20
Low P.JCase - 58V	Slow	20A to 60A	1kA at 58VDC	-	-	20
Jcase - 32V	Slow	20A to 60A	1kA at 32VDC	-	-	21
Fusable Links - 32V	Slow	20A to 140A	1kA at 32VDC	-	-	21-22
Midifuse - 32V	Slow	30A to 200A	1kA at 32VDC	-	-	24
Midifuse - 58V	Slow	30A to 200A	1kA at 58VDC	-	-	24
Strip Fuse - 36V	Fast	25A to 150A	TBA at 36VDC	-	-	23
Megafuse - 32V	Slow	40A to 500A	2kA at 32VDC	-	-	25
Megafuse - 70V	Slow	60A to 500A	2.5kA at 70VDC	-	-	25
Powervall - 32V	Slow	150A to 180A	2kA at 32VDC	-	-	26
MRBF - 58V	Slow	30A to 300A	2kA at 58VDC	Ign.Pro	IP66	28
Zcase - 32V	Slow	40A to 600A	2kA at 32VDC	-	-	29
Multi-Pole Fuse	Slow	20A to 60A	TBA	-	-	23
Battery Term Fuse	Slow	60A to 200A	1kA at 32VDC	-	-	30
FBT	Slow	35A to 500A	TBA	-	-	26
ANL	Fast	35A to 750A	6kA - 2.7kA at 32VDC	Ign.Pro*	-	27
ANN	Very Fast	10A to 800A	2.7kA at 80VDC	-	-	27
ACK	Slow	10A to 400A	10kA at Rated Voltage	-	-	^
JJN Class T	Very Fast	70A to 600A	20kA at 160VDC	-	-	31
EV10, EV20, EV30	Very Fast	5A to 400A	20kA at 500VDC	-	-	^
AE2 & AE5	Very Fast	10A to 700A	20-30kA at 500VDC	-	-	32
AE3	Very Fast	8A to 50A	20kA at 850VDC	-	-	33
AE7	Very Fast	60A to 600A	20kA at 800VDC	-	-	33
AE6 & AEX	Very Fast	5A to 600A	20-50kA at 1000VDC	-	-	34
FWH	Very Fast	35A to 800A	50kA at 500VDC	-	-	^
FWP	Very Fast	35A to 800A	50kA at 700VDC	-	-	^
FWJ	Very Fast	35A to 800A	50kA at 800VDC	-	-	^
ATX3	Very Fast	100A to 600A	50kA at 1000VDC	-	-	^

## ABYC Definition of Ignition Protection (Ign.Pro) E11.4.15.

The design and construction of a device such that under design operating conditions:

- (a) It will not ignite a flammable hydrocarbon mixture surrounding the device when an ignition source causes an internal explosion, or
- (b) It is incapable of releasing sufficient electrical or thermal energy to ignite a hydrocarbon mixture, or
- (c) The source of ignition is hermetically sealed.

**What does this mean?** Ignition Protected devices are designed to prevent the release of electrical or thermal energy (ie. sparks or heat) which could start a fire when operating in environments containing a mixture of air with gasoline, propane or CNG vapour. So when replacing or installing electrical equipment in these environments, make sure the product is specifically designated "Ignition Protected". As you can see in the above table, there are very few fuses that will meet this requirement, however we have a large range of circuit breakers that are Ignition Protected.

# FUSE SELECTION CHART

With an ever growing product range sometimes it can be hard to describe which fuse you need. So the following visual identification chart can help you identify some of the more common styles available. For a more comprehensive range please refer to the website [www.prolecproducts.com](http://www.prolecproducts.com) which showcases over 300 different product images.

## SFE GLASS CARTRIDGE FUSES 32V

SFE fast acting automotive glass cartridge fuses are similar to the "AG" style fuses in that they have the same diameter however the length varies according to ampere rating to ensure accurate fuse replacement.

Part Number	Ampere Rating	Imperial Length x Width	Metric Length x Width
SFE004	4A	5/8" x 1/4"	15.90 x 6.35mm
SFE006	6A	3/4" x 1/4"	19.05 x 6.35mm
SFE07.5	7.5A	7/8" x 1/4"	22.24 x 6.35mm
SFE009	9A	7/8" x 1/4"	22.24 x 6.35mm
SFE014	14A	1-1/16" x 1/4"	26.99 x 6.35mm
SFE020	20A	1-1/4" x 1/4"	31.75 x 6.35mm
SFE030	30A	1-7/16" x 1/4"	36.51 x 6.35mm
SFE000AP	Assortment Pack 10pcs		<b>NEW</b>
	4A, 6A, 7.5A, 9A, 2x 14A, 2x 20A, 2x 30A		

Assortment Pack

**Voltage:** 32VAC / 32VDC (Factory certified)  
**Pack Size:** 5, 10, 100, 500, 1000

FUSES + KITS

## 1AG (AGA) / 7AG (AGW) GLASS FUSES 32V

Part Number	Part Number	Ampere Rating
IAG.500	7AG.500	500mA
IAG001	7AG001	1A
IAG002	7AG002	2A
IAG02.5	7AG02.5	2.5A
IAG003	7AG003	3A
IAG005	7AG005	5A

## MINI TYPE DEVICES

Diode / Resistor  
Shunt / Transorb

Diode, Resistor, Shunt and Transorb vehicle-style electrical protection devices easily install in common Mini fuse holders and provide voltage and current limiting functionality to vehicle circuitry.

Part Number	Description	Profile	Brand
02400113P	Diode - 1A, (400V PIV). Keyed*. Reverse current protector.	Standard	Littelfuse
22903-6	Diode - 6A. Keyed*. Reverse current protector.	Tall	Bussmann
22903-6V	Diode - 6A. Keyed & Wing*. Reverse current protector.	Tall	Bussmann
22902-68	Resistor - 5W. Resistance: 68Ω. Voltage drop device.	Tall	Bussmann
0297900*	Shunt - 20A Maximum continuous load rating.	Standard	Littelfuse <b>NEW</b>
22901-1.5	Transorb - Clamp Rating: 27VDC. Power Rating: 1500W. Voltage spike protector.	Tall	Littelfuse

**Materials:** Thermoplastic housing, grey with metal cover (229 series).  
Thermoplastic housing, black (02400113P).

**Termination Type:** 2.8mm blades. Compatible with ISO 280 type fuse blocks.

**Diode Key Feature\*:** Standard key denotes installation direction.

Wing key available for error proof installation in Bussmann VEC.

**Holders:** Please refer to our holder compatibility table on our QR datasheet.

**Pack Size:** Stock lines 1pc. \*Indent items contact sales

## MAXIPLUS COMPACT FUSE 32V

The MAXI+® Fuse is new standard for vehicle circuit protection. Its miniature design meets the need for more circuits to be protected while utilizing less space, and its ability to cope with high temperatures in adverse environments makes the MAXI+® Fuse of recommended choice for protection.

Part Number	Ampere Rating	Body Colour
MAXP020	20A	Yellow
MAXP025	25A	Grey
MAXP030	30A	Green
MAXP035	35A	Brown
MAXP040	40A	Orange
MAXP050	50A	Red
MAXP060	60A	Blue

**Voltage:** 32VDC

**I.R.:** 1000A at 32VDC

**Characteristic:** Slow Acting

**Component Level Temperature Range:** -40°C to +125°C

**System Level Temperature Range:** -40°C to +105°C

105°C is a typical system level temperature requirement.

**Terminals:** Zinc alloy, silver plated.

**Features:** Maxi fuse opaque case to see fuse element.

**Holders:** Fuse Clips, Inline, PDM's contact sales for details.

**Pack Size:** 1, 10, 100, 500, 1000

## MULTI-POLE FUSE LINKS (3-IN-1) 32V & 58V

**EATON** Bussmann

**NEW**

Bussmann multi-pole fuses (MPF) are cartridge fuses containing three fuse elements of the same or differing ampere ratings for protecting three circuits with a single design. They are the OEM equivalent to the fuses used on popular Infiniti, Lexus, Nissan and Toyota vehicles manufactured since 2002.

Part Number	Ampere Ratings	Voltage	Colour Code
MPF-433X	40A + 30A + 30A	32VDC	Pink
MPF-444X	40A + 40A + 40A	32VDC	Green

## ANL LIFT TRUCK FUSES 80V

**EATON** Bussmann

Forklift truck and battery isolator fuses are specially designed for the heavy duty loads associated with DC battery powered equipment such as forklift trucks, hand trucks, motorized work platforms, and other DC battery operated systems. Rugged construction and stud mounted bolt-in design assure a long life in adverse conditions.

# BATTERY FUSE - MARINE RATED 58V

**EAT·N** Bussmann

**IP66** IGNITION PROTECTED

Marine Rated Battery Fuses - Designed for the most demanding environment to provide high current protection for the tightest space constraints. Suitable for main and auxiliary circuit protection such as alternator outputs, starter motor inputs, and accessory circuits. The breaking capacity meets the requirements of conventional vehicle batteries and 12V, 24V and 42V electrical networks.

## Features:

- Extensive ampere range 30A to 300A.
- Voltage rating 58VDC max.
- Ignition protected per SAE J1117.
- Weatherproof (IP66).
- Functional after 500 hours salt spray and salt fog test.
- Clear element window, visual indication of blown condition.
- Colour coded for easy ampere identification.
- Several mounting options. Accept mounting terminal size M8 max.
- Performance requirements per ISO8820-6.

Transparent cover with colour coded front face.

(see p.106)

**Bussed Fuse Block Multi Pole**  
(see p.108)

The Zcase Single Mega Starter Fuse is a minimal footprint bolt down fuse with a wide rating range up to 600A in the same packaging size. The Time Current characteristic is similar to the well known Mega fuse and fuse ratings up to 250A can be used for full wire protection. Higher fuse ratings mostly used for typically Starter Fuse application as a protector fuse. The fuse can be used directly on a battery post or busbar connection. Littelfuse is offering a complete solution for the necessary stud and different busbar connections including some battery clamps.

**Features:**

- Extensive amperage range 40A to 600A.
- Voltage rating 32VDC max.
- Accept mounting terminal size M8 max.
- Several mounting options, stud and post.
- Multi position busbar fed fuse blocks available.

## MULTI-POLE BATTERY TERMINAL FUSES 32V

**EATON** Bussmann

**NEW**

Battery terminal fuses are fuses containing one or more fuse elements of different ampere ratings for protecting circuits directly from the battery's terminal. Their function is to protect the conductors and not the devices on the circuit(s). They are the OEM equivalent to those part numbers used on popular models of Chrysler, Ford, Lexus, Lincoln, Mitsubishi, Nissan, Subaru, Suzuki, and Toyota vehicles since 2001.

## Features

- Circuit protection for devices including most inverter manufacturers.
- High interrupt capacity for large battery banks including Lithium-Ion and TPPL batteries.
- 200kA interrupting rating provides high ratings at all circuit locations.
- Current limitation for non-inductive circuits. Current-limiting response to short-circuit conditions.
- Small footprint allows more efficient use of available space.

# ELECTRIC VEHICLE FUSES - INTRODUCTION

Just as every other car, electrical vehicles contain electrical components which need to be protected from dangerous over current and short circuits. On top of these lower-voltage components, EVs also have high voltage DC parts like high-capacity battery packs, power conversion devices and other auxiliary circuits. Being direct current, fuses for these applications must meet special requirements for a safe and reliable operation. The same applies to EV fast charging stations which are able to deliver high DC currents. They are an important pillar of e-mobility and the appropriate protection is important for making them reliable and available.

To fit the needed electrical fuses into the automotive environment, ADLER decided to develop completely new fuse designs. Ordinary semiconductor fuses with ceramic bodies are simply not suitable for the high mechanical and thermal stress inside a car. Adler EV fuses are designed in compliance with automotive standards, for example ISO 8820-8 and JASO D622. Additionally, they are available with melamine laminated glass fiber bodies which are able to withstand mechanical shocks and vibrations to avoid long-term damages. With a product portfolio ranging from 200 VDC to 1000 VDC and different sizes, we can offer the right fuse for your application – be it main or auxiliary circuits for electric vehicles, charging stations or DC converters.

## ABYC Definition of Ignition Protection (Ign.Pro) E11.4.1.5.

The design and construction of a device such that under design operating conditions:

- (a) It will not ignite a flammable hydrocarbon mixture surrounding the device when an ignition source causes an internal explosion, or (b) It is incapable of releasing sufficient electrical or thermal energy to ignite a hydrocarbon mixture, or (c) The source of ignition is hermetically sealed.

**What does this mean?** Ignition Protected devices are designed to prevent the release of electrical or thermal energy (ie. sparks or heat) which could start a fire when operating in environments containing a mixture of air with gasoline, propane or CNG vapour. So when replacing or installing electrical equipment in these environments, make sure the product is specifically designated "Ignition Protected". As you can see in the above table, there are very few fuses that will meet this requirement, however we have a large range of circuit breakers that are Ignition Protected.

# CIRCUIT BREAKER SELECTION CHART

With an ever growing product range sometimes it can be hard to describe which circuit breaker you need. So the following visual identification chart can help you identify some of the more common styles available. For a more comprehensive range please refer to the website [www.prolecproducts.com](http://www.prolecproducts.com) which showcases over 300 different product images.

## CIRCUIT BREAKERS - AUTO BLADE L.P 28V

**EAT·N** Bussmann

### Features:

- Low profile design.
- Ignition Protected.
- Colour coded body matches amperage ratings.
- Matches auto fuse footprint of 5.2mm wide blades making it compatible with existing auto fuse fuse blocks and panels.
- Manual reset button with protective walls.

CIRCUIT BREAKERS

## CIRCUIT BREAKERS - AUTO BLADE 72V

**MORSETTITALIA**

### Features:

- Miniaturised single pole thermal circuit breaker.
- Low to middle amperages.
- Suitable for both AC and DC Voltage.
- Manual push on push off button.
- Reliable snap-acting and trip-free mechanism.
- Labeling feature. Equivalent to E-T-A I180

### 72VDC

**Boot**

**Busbars**

**Notes:** CBBP covers are IP64 water resistant. They protect the manual reset circuit breaker button against dust and water. The CBBR PVC boots protect terminal connections from accidental shorts. Use to comply with ABYC E-9, USCG 33pl & ISO 10133. Fits breakers with or without brackets. Both T1 & TIII. Cable entry 18-10AWG. Busbars suitable for breakers fitted with a parallel bracket or without bracket.

### Features:

- Single pole thermal circuit breakers are available in ratings in ratings 5 to 50 Amps.
- Three mounting styles: Cross mounting bracket, parallel mounting bracket or no bracket.
- Three reset options: automatic (T1), modified reset (TII) and manual reset (TIII).
- Now includes colour coded stamped amperage sticker.
- Laser etched brand, part numbered and batch coded.

**Voltage:** 12VDC (Type I), 12-24VDC (Type III).

**I.R.:** 2.5kA @ 12VDC.

**Operating Temp:** -10°C to 60°C

**Body Type:** Plastic case (standard). Metal case (optional).

**Features:** Ignition Protected

**Ingress Protection Rating:** IP66\* (Plastic, except terminations).

**Reset Overload Capacity:** 6 x rated current.

**Pack Size:** Stock lines 1pc, indent items 500pcs.

**Mounting Hole:** Bracket mounting holes 5.8 mm diameter.

**Notes:** Keps lock nuts included with circuit breakers.

**Approvals:** SAE J553, J1171 RoHS

**Extended Product Options:** Indent Only.

CBBB3	3 Position Brass Tin Busbar
CBBB6	6 Position Brass Tin Busbar

**Cover** NEW

**Boot**

Push button to reset

**Busbars**

**Notes:** CBBP covers are IP64 water resistant. They protect the manual reset circuit breaker button against dust and water. The CBBR PVC boots protect terminal connections from accidental shorts. Use to comply with ABYC E-9, USCG 33pl & ISO 10133. Fits breakers with or without brackets. Both T1 & TIII. Cable entry 18-10AWG. Busbars suitable for breakers fitted with a parallel bracket or without bracket.

**Features:**

- Miniature size panel mount or dash mount. Snap mount also available upon request.
- Wide range of common amperages 3A-40A suitable for both AC & DC voltages.
- Custom versions with alternative termination, mounting, button and reset options are also available.

## Features:

- Rocker style, switchable circuit breaker offering trip-free protection.
- It operates as a latched mechanism in which the switch function (Power On / Off) is independent of the trip function (Overload Protection). The latch mechanism is extremely simple in design providing reliable operation and provides the convenience of a switch and circuit breaker in one device. Fewer components means less space and therefore a more compact equipment design. UL 1500 Ignition Protection.
- Designed for use in compact, snap-in panel mount applications. Amperage range 100mA to 30A.

## Custom Ordering Options:

- As a switch, circuit breaker or combined switch / breaker. One or two pole device.
- Switch guard options; (a) standard rocker, (b) rocker + splash guard, (c) standard rocker + actuator guard, (d) rocker with splash and actuator guard.
- With a variety of switch markings & colours, green, red, amber & white translucent actuators for both lit and unlit applications, as well as unlit black. With or without illumination (incandescent or neon).
- Quick connect or screw terminations.
- Two panel cut-out sizes; 50.5 x 21.6mm (Standard), 44.5 x 21.6mm (Optional).
- Complete range of ampere ratings also available upon request; 100mA, 200mA, 300mA, 400mA, 500mA, 600mA, 800mA, 1A, 1.25A, 1.5A, 2A, 2.5A, 3A, 3.5A, 4A, 4.5A, 5A, 6A, 7A, 8A, 10A, 12A, 14A, 15A, 16A, 18A, 20A, 25A, 30A.

### Switch Breaker Panels

Custom made & standard 4, 6 & 8 way switch breaker panels see page 175.

# BATTERY DISCONNECT CIRCUIT BREAKER SERIES 53

The Series 53 Branch Disconnect / Circuit Breaker incorporates into a single device both traditional battery disconnect switching (non-engine) and circuit protection. This unique combination of features in a single rotary switch allows OEM cost savings by eliminating the added components, material and labour of a separate battery switch and circuit breaker / fuse. For the end user or maintenance personnel, the Series 53 provides a quick means to disconnect traditional downstream circuit(s) while preventing unintentional battery drain or allowing for disconnected battery power during storage and/or maintenance.

## Features

- Series 53 is available in current ratings 10A to 70A.
- One piece terminal stud design never loosens over time.
- Designed for panel mounting (front or rear of panel).
- Ignition protected and weatherproof (IP66 & IP67).
- Designed and manufactured in USA.

## Rear Panel Mount

Disconnect and Protect to 32VDC

**Voltage:** 32VDC.

**Interrupt Capacity:** Per SAE J553 & ULI 1077\* (U3) at 14 & 28VDC, 1.5kA @ 14VDC per ABYC (SAE J553 & ULI 1077\* U3), 3kA @ 14VDC.

**Mounting Options (3):** Rear panel mount, Front panel mount & Surface mount. Mounting eyelet hole size #10 with #8-32 nuts pre-installed.

**Ingress Protection Rating:** IP66 / IP67. (IEC 60529).

**Ignition Protection:** ISO 8846\*, USCG, ABYC, ULI 500\* and SAE J1171

**Dielectric Strength:** 2000VAC minimum ULI 107. **Housing:** Thermoplastic.

**Shock, Vibration, Corrosion:** MIL-STD-202, ULI 1077\*, ULI 107\*

**Endurance:** Per SAE J553 (100 overload trip cycles at 400% of rated current at 28VDC).

**Min / Max Ultimate Trip:** Must Hold 100% of rated current at 25°C/77°F. Must Trip at 135% of rated current within 1 hour. Unique / specific higher ambient calibrations are available, contact sales.

**Operating Temperature:** -40°C to 85°C

**Inrush Capacity:** The Series 53 will not trip at 35X rated capacity for 1/2 cycle (0.008 sec.).

**Note:** This product is not rated for an engine starter circuit. \*Tested per methods of standard.

**Approvals:** UL 1077, SAE J553, ABYC, CE

## Series 53 Disconnect Function

**Switch ON, Continuity** - Breaker is active and circuit is active.

**Switch ON, NO Continuity** - Breaker is tripped. Push the PUSH TO RESET button to reset the breaker.

**Switch OFF, NO Continuity** - Breaker is not operable. Circuit is Off.

Panel Mount Cutout Front or Rear

### Features:

- Designed for the harshest of environments. Weatherproof and ignition proof.
- All materials used are resistive to UV and flammability. Strong thermoplastic case.
- Double break design to achieve increased short-circuit interruption capability.
- The push-to-reset actuator is trip-free, ensuring the breaker cannot be forced to continuously maintain a closed circuit if an overload condition exists.
- Suitable for Marine, Heavy Equipment, Trucks, Buses & Battery Chargers. Made in USA.

**Approvals:** ABYC E-11, SAE J553, SAE J1428, UL 1500, UL 1077, MIL-STD-202.

## Features:

- Wide range of ratings from 25A to 200A.
- Smallest breaker in range for 175A & 200A Ratings.
- Superior Ingress Protection, rated to IP67 & IP69K.
- Designed for harsh applications to 30VDC.
- Optional LED triplD version for open circuits.
- Front panel or rear panel mounting options.
- Trip free.
- Wide bracket version available in natural or black.
- Made in USA. Some subassembly made in Australia.

CIRCUIT BREAKERS

# CIRCUIT BREAKERS - SERIES 17 SURFACE MOUNT DIAG

## Features:

- Ignition protected and weatherproof.
- Superior moisture seal.
- Robust thermoplastic case.
- Corrosion resistant studs & hardware.
- 1/4" or 3/8" stainless steel stud options.
- Stronger rubber stud cap lead.
- Accommodates new *tripID*™
- Made in USA.

Termination: M6 threaded studs.

Operating Temp: -40°C to 85 °C.

Storage Temp: -40°C to 125°C.

Ingress Protection Rating: IP67

Housing: UL 94 V-0 thermost plastic.

Indicator: Bright yellow colour reset mechanism provides visual indication of tripped condition on manual reset breakers.

Features: Ignition Protected and weatherproof.

Terminal Hardware: Stainless steel nuts and lock washers installed.

Pack Size: Stock lines 1pc, indent items 60pcs

Notes: The 285 series is a drop in replacement for the 185 series.

I84 series also available which is manual reset only, no PTT feature.

Approvals: SAE J1625, SAE J1171, ABYC E-11 CE

Gasket Accessory  
B156-7003-J

Gasket Fitted  
To Breaker

### Suggested Mounting Cutout

Gasket Part Number: B156-7003-J

Material: Black Santoprene.

Notes: Optional flange mount gasket for through wall applications. Gasket wraps around breaker to provide a seal between the circuit breaker housing and the panel.

Typically used in DC power systems in marine applications (as a main or branch circuit breaker), truck and bus systems, RV systems, add-on protection for accessories, lift gates, etc.

IGNITION  
PROTECTED  
IP66

### Features:

- Single lever for manual reset switching operations.
- Capable of withstanding 3000 on/off cycles at 48VDC.
- Ignition Protected and weatherproof.
- Corrosion resistive materials.
- Large clearance around studs to accept large gauge wire lugs.

### Surface Mount Manual Reset

5/16" - 18 Threaded Studs

**Voltage:** 48VDC

**I.R.:** Main Breaker Protection.

5kA at 14VDC, 3kA at 28VDC, 1.5kA at 48VDC

**Reset Mechanism:** Type TIII, Manual reset & switchable.

**Pack Size:** Stock lines 1 pc, indent items 60 pcs.

**Mounting Options:** Surface or Panel Mount.

**Operating Temp:** -40°C to 85°C.

**Storage Temp:** -40°C to 125°C

**Materials:** Base UL-Rated 94V-0 thermoset plastic.

Cover & lever UL-Rated 94V-0 thermoplastic.

**Marking:** Standard marking includes amp/volt ratings.

**Terminal Hardware:** Stainless nuts & lock washers installed.

**Termination:** 5/16" - 18 threaded studs.

**Torque Rating:** 8.5Nm max.

**Mounting Torque Rating:** 5.6Nm max.

**Ingress Protection Rating:** IP66

**Approvals:** SAE J1171, ABYC E-11 CE

FHU002L	30A with Extended Cover

**Voltage:** 32V

**Body:** Black waterproof inline fuse holder.

**Body Seal:** Silicone gasket.

**Cover:** Clear cover with lock and mounting hole.

**Suits:** Mini, LED Mini, Auto and LED Auto Blade Fuses, Mini and Auto Bladed Circuit Breakers.

**Wire:** 3.0mm<sup>2</sup> (#12AWG).

**Wire Length:** 2 x 305mm / 12" lengths of wire.

**Pack Size:** 1, 10, 100, 500

**Notes:** Fuse & breakers are not included.

**Approvals:** **RoHS**

## JCASE FUSE IN-LINE HOLDER SPLASHPROOF

IP67

- Suit either Low Profile JCASE™ fuses (LJC) or original standard JCASE fuses (JTF).
- They offer size and weight savings compared to MAXI™ fuse holders.
- Include a protective cover for splash resistance.
- Fuse links are compact and incorporate a design advantage over blade fuses. Over time the spring clips that hold blade fuses will weaken. In cartridge fuses, the weaker female part is designed into the disposable fuse so that the grip and electrical connection will never weaken.

Part Number	Description
FHJCI002	Fuse holder with cover

**Rating:** 60A  
**Voltage:** 58VDC  
**Wire Thickness:** #8AWG  
**Cable Insulation:** GXL, 125°C  
**Operating Temperature Range:** -40°C to +125°C  
**Max Fuse Insertion Force:** 49 Nm  
**Pack Size:** 1, 10, 50, 100, 250

## MIDI FUSE IN-LINE HOLDER WITH COVER

FUSE HOLDERS

The inline Midi fuse holder is designed for use with bolt-down Midi fuses. It may be installed directly inline with the cables with no mounting required. The Inline Midi fuse holder can be used with heat shrink tubing for applications requiring more splash resistance. The curved design of the cover aids in prevention of tube-splitting during application.

Part Number	Description
04980921GXM5	Fuse holder includes cover and hardware.

**Voltage:** 32V  
**Rating:** 200A  
**Operating Temperature Range:** -40°C to +125°C  
**Max. Wire Size:** 20mm<sup>2</sup>  
**M5 Torque Rating:** 5Nm  
**Base/Cover Material:** UL 94V-0 glass-filled nylon  
**Bolts:** Zinc plated steel M5 x 0.8  
**Hardware:** Zinc-plated steel nuts with nylock inserts (included).  
**Pack Size:** 1, 10, 100  
**Notes:** Midi fuse is not included.

## FUSE SOCKET SHORT CIRCUIT DIAGNOSTIC KIT - 17pcs

**PROLEG**

This circuit diagnostic kit enables professional mechanics to troubleshoot short circuits in a vehicle without the need to constantly replace fuses. Simply plug the correct socket connector into the fuse slot and fit the appropriate circuit breaker, then start troubleshooting. Mechanics will be able to use the manual reset button on the circuit breaker during the troubleshooting process to reset the breaker instead of replacing a new fuse. Each socket connector has an extension cable to save the user having to reach down into difficult locations where the fuse box is located every time a reset is required. Once the short circuit has been fixed, simply remove the connector and reinstall the correct fuse.

Part Number	Kit Contains
FSCLA-KIT	1 x Mini blade socket connector and mini blade breaker housing. 1 x Auto blade socket connector and auto blade breaker housing. (Each unit is 280mm long with 12AWG red cable). 7 x Mini blade type III manual reset circuit breakers. Ratings include: 5A, 7.5A, 10A, 15A, 20A, 25A, 30A 7 x Auto blade type III manual reset circuit breakers. Ratings include: 5A, 7.5A, 10A, 15A, 20A, 25A, 30A 1 x Fuse puller. Extracts mini and auto blade fuses.

Short Base Without GTP

**Voltage:** 32V  
**Input Terminal Rating:** 100A max total.  
**Output Terminal Rating:** 30A max. per circuit  
**Positions:** 4 to 20 circuits available  
**Materials:** Black thermoplastic  
**Input Stud:** # 10-32 threaded stud.  
**Hardware:** Nut and lockwasher supplied on input terminal.  
**Output Terminals:** 6.35mm x 0.8mm Q.C. terminals.  
**Wire Size:** # 4-6 AWG (Input), # 12-16 AWG (Output).  
**Feature:** Recessed area in centre of block for identification label.  
**Pack Size:** Stock lines 1 pc. Indent items 35pcs.  
**Notes:** \*When ordering with a GTP fitted, please add 33mm to dimension 'L' for actual overall length.) Plug-in components such as fuses and breakers not included.  
**Dual Supply Option:** RTA fuse panels can also be ordered with 2 power input studs (dual power feed). Choose from 4-16 fuse/breaker positions for each input stud (20 positions total per panel). Please contact sales for further information.

# AUTO FUSE 6 & 12 WAY PANELS LED INDICATING

## Features:

- 2 combined preassembled models available.
- Features blown fuse LED indication.
- 2 slots to store spare auto fuses.
- Includes a 65 piece sticker set to identify each circuit.
- All fuse and ground terminal panels include a clear cover.

Part Number	Description
MFP6SCGTP	6 Way auto fuse panel with cover & GTP.
MFP12SCGTP	12 Way auto fuse panel with cover & GTP.

**Voltage:** 32V

**Maximum Total Block Rating:** 100A

**Maximum Terminal Rating:** 30A

**Input Stud & Ground Stud:** M5 (3/16")

**Output Screw Terminals:** M4 (5/32")

**Ground Screw Terminals:** M4 (5/32")

**Base Colour:** Black **Cover:** Clear

**Operating Temperature:** -20°C to +60°C

**Screws & Lock Washers:** Included.

## AUTO FUSE 6 & 12 WAY PANELS

**NEW**

### Features:

- Suits auto fuse or auto bladed circuit breakers.
- Dual power studded inputs & single ground stud.
- Multiple earth returns.
- Lockable transparent cover with label recesses.
- Storage for two spare fuses.
- 84pc sticker label set included.

Part Number	Description
880027	6 Way Fuse / Breaker Block
880028	12 Way Fuse / Breaker Block

**Voltage:** 32VDC

**Continuous Rating:** 100A Total Max.

**Rating Per Circuit:** 30A Max.

**Power Input Studs:** Dual Input Studs.

**Negative Input Stud:** Single # 10-32.

**Ground Terminals:** # 10-32 Screws.

**Output Terminals:** # 10-32 Screws.

**Mounting:** Bolt-Down; 4 x M5 included.

**Base:** Black Polycarbonate.

**Cover:** Clear PBT.

**Notes:** Fuses are not included.

## AUTO FUSE 12 WAY PANEL

### Features:

- Suits auto fuses.
- Single power studded input & single ground stud.
- Transparent cover stores two spare fuses.
- 84pc sticker label set included.

Part Number	Description
880066	12 Way Auto Fuse Block

**Voltage:** 32VDC

**Cumulative Rating:** 100A total.

**Rating per Circuit:** 30A.

**Single Input & Ground Studs:** # 10-32.

**12 x Output & 12 x Ground Terminals:** #8-32 screws.

**Internal Buss & Fuse Clips:** Tin plated copper.

**Base:** Black reinforced polycarbonate.

**Cover:** Clear polycarbonate.

**Hardware:** Stainless steel nuts, screws & captive star lock washers.

**Notes:** Fuses are not included.

**Approvals:** Cover satisfies ABYC/USCG insulation requirements.

Email: [info@prolegproducts.com.au](mailto:info@prolegproducts.com.au)  
Web: [www.prolegproducts.com.au](http://www.prolegproducts.com.au)

### Features:

- Capacity of 8 to 32 output circuits (for auto fuses or auto bladed circuit breakers).
- 1, 2, 3 or 4 bussed power input studs. Each powering 4 or more fuse circuits.
- Splash resistant cover included. Shallow for fuses. Tall auto bladed circuit breakers.
- Fuse / Circuit breaker block is also available in custom configurations.

# AUTO FUSE BLOCK SEALED - 10 WAY

**NEW**

**IP67**

The Littelfuse HWA20 is a non-bussed, sealed IP67, fuse block constructed from durable polyamide. All input and output connections are electrically isolated, enabling the user to customize the circuitry. Capable of installing 10 x Auto fuses with a maximum combined amperage of up to 210A. Dovetail slots on the sides of the block enable multiple units to be connected side by side to each other or with other Littelfuse fuse blocks and power distribution units.

Part Number	Kit Contents:
PDM61001ZXM	Base, Cover, Seal, Terminal Secondary Lock (TPA)
	20 x Terminals (927835-1), 20 x Seals (963245-1)
	4 x Cavity Plugs (100132-1)

Part Number	Individual Component Ordering
PDM61001ZXM	Module with Cover & Terminal Secondary Locks
927836-1	Terminal Female (#20 - #16 AWG), 0.5 - 1.0mm <sup>2</sup>
927835-1	Terminal Female (#15 - #13 AWG), 1.5 - 2.5mm <sup>2</sup>
928966-1	Terminal Female (#12 - #11 AWG), 3.0 - 4.0mm <sup>2</sup>
1241962-1	Terminal Female (#12 - #10 AWG), 3.0 - 5.0mm <sup>2</sup>
963243-1	Cable Seal Silicone Blue, 1.4 - 2.1mm Cable Dia.
963244-1	Cable Seal Silicone White, 2.2 - 3.0mm Cable Dia.
963245-1	Cable Seal Silicone Yellow, 3.4 - 3.7mm Cable Dia.
967011-1	Cable Seal Silicone Green, 3.6 - 4.3mm Cable Dia.
100132-1	Cavity Plug Silicone Black, 8.1mm Cavity inside Dia.

**Voltage:** 80VDC

**Maximum Total Current:** 210A

**Max Single Fuse Rating:** 40A

**Temperature Rating:** -40°C to +85°C.

**Body & Cover:** Black Thermoplastic 94V-0.

**Cover Gasket:** Green silicone.

**Wire Size:** 0.5 to 5mm<sup>2</sup> (#20 to #10 AWG).

**Terminals:** TE AMP Standard Power Timer, Tin Plated.

**Terminal Secondary Locks (TPA's):** Included with module.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals. Silicone material.

**Ingress Protection Rating:** IP67 when cover, cable seals & cavity plugs are installed.

**Cavity plugs** must be fitted to any of the unused 20 terminal holes.

**Mounting:** Surface mount using 4 fixing holes (M6). Mounting Torque: 4 to 6 Nm.

**Suit Fuse:** Auto fuses (1A-40A). Not suitable for circuit breakers.

**Notes:** Fuses, terminals, cable seals or cavity plugs are not included.

**Pack Size:** 1

# MIDI FUSE BLOCK GANGABLE 65V

The BHR series fuse holder is specially designed for use with DC fuse in automotive equipment and road vehicles. It works with both 32V and 58V Midi fuses. The holder is built with special automotive grade materials to withstand high fault currents and temperatures.

Part Number
BHR030-15-M5

**Voltage:** 65VDC  
**Rating:** 125A  
**Body:** Black PA + GF VO  
**Cover:** Black PA + GF VO  
**Operating Temperature:** -40 to +125°C  
**Hardware:** Includes hex nuts & lock washers.  
**Studs:** M5 threaded stainless steel.  
**Features:** Gangable. Cover with window feature.  
**Pack Size:** 1, 10, 100  
**Notes:** The holders feature a stackable side design to allow multiple holders to be joined together. Fuse is not included.  
**Approvals:** RoHS

Bussmann now offers a heavy duty fuse panel called the LMI "Little Block". The LMI is used for main branch primary fusing and can be configured to fit up to 6 industry standard Midi fuses all bussed to a single input stud. The LMI provides efficient power distribution suitable for many "under the hood" applications such as; Marine, Construction, Agriculture, Heavy Trucking, Bus and Specialty Vehicles.

Part Number	Description
LMI 1-E-1-0	Midi Fuse Block (2 x 10-32 studs)
LMI 1-E-1-1	Input Module (1 x 5/16"-18 stud)
B 109-7091-2	Busbar 2 holes - (spans 2 modules)
B 109-7091-3	Busbar 3 holes - (spans 3 modules)
B 109-7091-4	Busbar 4 holes - (spans 4 modules)
B 109-7091-5	Busbar 5 holes - (spans 5 modules)
B 109-7091-6	Busbar 6 holes - (spans 6 modules)
B 109-7091-7	Busbar 7 holes - (spans 7 modules)

**Input Module**  
LMI1-E-1-1

**Midi Fuse Block**  
LMI1-E-1-0

**Ordering:** Maximum of 7 blocks / modules per assembly (6 fuse blocks & 1 input module). One Midi fuse block is required for each Midi fuse. Input modules and bus bars can be ordered as required. The input module should be located in the center of the assembly for bus bar efficiencies.

**Ratings:** Midi Fuse Block 200A. Maximum total combined rating is 400A continuous.

Based on numerous variations possible between numbers of poles used, fuses selected, input wiring, and output wiring, all applications should be tested by installer to verify the product meets their requirements.

**Temperature:** -40°C to 85°C.

**Housing:** HTN black UL-rated 94V0 thermoplastic material.

**Cover:** Red Santoprene cover for protection from accidental shorts.

**Studs (Midi Fuse Block):** # 10-32 Stainless Steel & Keps Nuts.

**Stud (Input Module):** 5/16"-18 Stainless Steel & Keps Nut.

**Accessories:** Includes cover & keps nut(s).

**Pack Size:** 1, 10, 100

**Options:** Pre-assembled with specified Midi fuses for OE requirements.

**Notes:** The modules feature a stackable side design to allow multiple modules to be joined together. Fuses & bus bars are not included with blocks.

**Approvals:**

5-16"-18 Stud Input Module      10-32 Studs Fuse Block

# MEGA FUSE BLOCK SEALED & IGNITION PROOF

IGNITION PROTECTED **NEW**

**IP6K9K IP66**

These high amperage fuse blocks feature sealed positive latching technology to form a water resistant and ignition protected assembly. The cover is retained to the base with a built in tether to ensure there are no missing components during servicing. The base features thru-hole provisions to ensure that the unit is mounted securely to the application.

## Features

- Provides high amperage, in-line, main or branch circuit protection in harsh or hazardous environments.
- Waterproof / sealed fuse compartment provides protection from fuse corrosion.
- Ignition protected to SAE J1171 and ISO 8846 for installation in a battery box or on vehicles carrying hazardous loads.
- All stainless steel hardware and tin-plated 100% pure copper optimize long-term corrosion protection.
- Allows dielectric spray on cable terminals without compromising fuse connections.
- Cover retention ensured through integrated tether.
- AssureLatch™ technology for worry-free positive latching.

Assure Latch™

Part Number	Description
880014	Mega Fuse Block & Cover Sealed

**Voltage:** 60VDC

**Rating:** 500A

**Input Studs:** M8 stainless steel.

**Ignition Protected:** SAE J1171 and ISO 8846

**Ingress Protection:** IP66 / IP6K9K

**Operating Temperature:** -50°C to +85°C

FUSE HOLDERS

# MIDI MULTI-POLE POLE FUSE BLOCK 58V

**NEW**

The MIDI-Flex fuse holder is used with the MIDI style bolt-down fuse, which is available up to 200 A. This holder offers a flexible cover, which allows cable entry from virtually any direction, large wire size, and ring terminal stack up. Slots on the base allow holder to be mounted with tie wraps. Dovetail features allow you to interlock multiple MIDI-Flex fuse holders together for a high power distribution block. Bus bars are available for multiple holder applications.

## Features

- Flexible cover allows for cable entry from virtually any direction allowing for easier installation.
- Dovetail features allow you to interlock multiple Flex holders together to create a high power distribution block. Combine with the MEGA-Flex fuse holder for a high and low amperage solution.
- Slots are moulded into the base that allow the holder to be securely mounted with tie-wraps.
- Zinc plated steel hardware and tin-plated 100% pure copper optimize long-term corrosion protection.

Part Number	Description

The MEGA-Flex fuse holder is used with the MEGA bolt-in fuse, available in ratings 40A to 500A. This block features a flexible cover which allows cable entry from virtually any direction, large wire size, and ring terminal stack up. Slots on the base allow holder to be mounted with cable ties or surface mount using standard screw holes. Bus bars are also available for common power feed across multiple holders. Dovetail features allow you to interlock multiple MEGA-Flex holders together for a high power distribution block or it can interlock with other Littelfuse products including FLEC, EPC, HWA20, HWB60 & Midi-Flex.

Part Number	Description
02981028	Fuse block with M8 Studs & Cover

# EV / EVSE BOLTED FUSE BLOCKS FIXED

The BFR series fuse bases are suitable for use in automotive vehicles and automotive supply equipment. The bolt mount assembly system uses a wedge lock system to withstand extreme vibration or dynamic loads. The Adler BFR series EV fuse block uses special materials for use with high fault currents and temperatures specifically for automotive fuses applications.

- Rated Voltage:** 1000VAC / 1000VDC
- Rated Current:** Adler EV fuses (all current ratings) can be used with their suitable fuse blocks.
- Operating Temperature:** -50°C to +180°C
- Max Voltage:** 13-18 kV
- Insulation Board Material:** FR4
- UL94 Flame Retardant Grade:** 94HB
- Insulation Resistance:** 50,000 M ohm
- Studs:** Stainless steel.
- Hardware:** Two-piece interlocking wedge lock washers.
- Hardware Option:** Detend edged washers add suffix -S.
- Pack Size:** 1, 20, 100
- Notes:** Fuse not included.

# ZCASE M8 FUSE BATTERY STUD MOUNT BARS 1 POLE

**NEW**

The Littelfuse ZCASE® SMZ Series Stud Mount Fuse Holder reduces the need for wiring and parts by allowing ZCASE® single high-current fuses to be directly installed on an alternator, battery switch, or electrical relay.

**Features:**

- Up to 3 fuse holders can be stacked to protect multiple circuits.
- Space-saving design eliminates the need to wire in a separate fuse holder or power distribution module (PDM).
- Cover offered in 2 styles. Fuse only or fuse and mounting stud.

Part Number	Description - 1 Pole Fuse Bar

## 4 POSITION MARINE RATED BATTERY FUSE BLOCK

### Features:

- All 4 positions are electrically connected via a internal bus bar.
- The block can accommodate up to four CF8 or MRBF Fuses.
- A single input power cable can be connected under one fuse to power all 4 positions or it can be connected to one stud to provide power to the remaining 3 positions.
- Can distribute non-fused power or can be used as a grounding block.
- The studs are electrically isolated so standard hardware can be used.

Part Number	Description
0799C001ZXS	4 Way bussed battery fuse block

**Block Rating:** 500A max total.  
**Output Terminals:** 300A fuse max.  
**Voltage:** 58VDC  
**Mounting Torque:** 25 Nm max  
**Studs:** M8  
**Operating Temp.:** -40 °C to 125 °C.  
**Notes:** Fuses not included.  
**Approvals:** ISO 8820-5

### RELATED

**PRODUCTS:** MRBF fuses  
 (See page 28)

## 5 & 7 POSITION ZCASE FUSE BLOCK

**NEW**

The 5 or 7 position ZCase fuse blocks are designed for primary high current power distribution. One position is used as a power input terminal and usually fitted with a Zcase shunt to provide common power, via the bus bar (included), to the remaining positions fitted with ZCase fuses for protected power outputs. A variety of bus bar configurations are possible. The green dust covers keep dust out of the backside of the fuse box and the cover protects the fuses from debris. Applications include construction equipment, body builders, agricultural equipment and HD/MD Trucks.

### Features:

- High current distribution with flexible bussing.
- Busbars can also be cut to create split circuits.
- Corrosion resistant coatings and stainless steel nuts.
- ZCase 3298 series fuses (40A to 600A) or Zcase shunts can be used in any location.

Part Number	Description
0FHZ0005Z	5 Stud assembly, M8 input, busbar, cover & tether.
0FHZ0009Z	7 Stud assembly, M8 input, busbar, cover & tether.

**Voltage:** 32VDC  
**Maximum Continuous Current :** 400A.  
**Fuse Block Contents:** Studs, Busbar, Black Silicon Rubber Tether & Green Silicon Rubber Dust Covers.  
**Fuse Block Dimensions 5 Way:** 217mm x 86mm x 59mm.  
**Fuse Block Dimensions 7 Way:** 281mm x 86mm x 59mm.  
**Busbar:** Solid Copper with Tin Plating.  
**Max wire size:** AWG 4/0 (105mm<sup>2</sup>)  
**Contact Temperature:** -40°C to 105 °C.  
**Notes:** Zcase fuses / shunts are not included.

# BATTERY MOUNT FUSE HOLDER WITH BUSBAR 2-4 POLE

**NEW**

The Battery Mount ZCASE® Fuse Holder with Busbar (BMZB) series allows you to mount fusing directly to a post-style battery terminal. This series offers a compact solution with an integrated busbar, which consolidates complex wiring around a battery system, eliminating or reducing the need for additional wiring. By creating additional fusing locations outside of the main fuse box, these products help reduce cabling and assembly time and provide localized circuit protection without modifying the existing battery harness. This product is designed to mate with M6 ZCASE® fuses, and is rated to operate with fuse ratings up to 400A. This series mounts directly to the battery post with all necessary hardware coming pre-assembled. Available in 2-, 3-, and 4-position configurations, this series serves as a scalable circuit protection solution.

## Applications

- Battery-mounted circuit protection.
- Secondary circuit protection for applications and motors such as trucks.
- Best used for hydraulics, electric pumps, or other secondary motors.

## Features:

- Specifically designed to relocate circuit protection closer to a vehicle battery.
- Integrated busbar.
- Plastic cover (3 & 4 pole only) & overmolded housing.
- Battery clamp oriented to provide clearance for wire routing.

Part Number	Description -
FHZ210	Negative Post Mount Fuse Holder 2 Position No Cover (-)
FHZ310	Positive Post Mount Fuse Holder 3 Position with Cover (+)
FHZ410	Strap Mount Fuse Holder 4 Position with Cover

**Voltage:** 32VDC

**Rating:** 400A Max continuous.

**Operating Temp.:** -40 °C to 85 °C.

**Base Material:** Black PPA-GF30 UL94 V-0

**Cover Material:** Black PBT UL94 V-0

**Fuse Busbar:**

**Torque Battery Post:** Tighten the M6 nut to 5.4 Nm to secure the base to the battery post.

**Torque Zcase Fuse:** Assemble nut and washer and tighten the nut to 14 Nm to secure the ring terminal to the ZCASE fuse.

**Notes:** Zcase fuses are not included.

**FHZ210**

Two fused outputs.

**FHZ310**

Three fused outputs.

**FHZ410**

Four fused outputs.

**FHZ410** is designed to be used as a battery strap to connect the positive posts of 2 Group 31 batteries, the 4-position holder also provides 4 individual fused outputs in a convenient linear setup.

**NEW**

**IP66**

The 3 Pole Jcase fuse module with common feed, suits high amperage circuit protection applications in harsh environments with limited space. This sealed, compact and connectorized fuse module is a cost effective and installation friendly circuit protection solution. Panel mount with included speed nuts or surface mount.

Part Number	Description
JCU-3P-000-P	3 Pole Jcase Fuse Module
I2124685	3 Way Female Connector
I2045699	Connector TPA Terminal Position Assurance
I2052457	Female Terminal 20-18AWG, 0.5 - 0.8 mm <sup>2</sup> wire
I2052455	Female Terminal 16-14AWG, 1 - 2 mm <sup>2</sup> wire
I2052456	Female Terminal 12-10AWG, 3 - 5 mm <sup>2</sup> wire
I5324995	Cable seal, 2.01 - 2.85mm dia. wire, Red
I5324994	Cable seal, 2.81 - 3.75mm dia. wire, Grey
I5324996	Cable seal, 3.61 - 4.50mm dia. wire, Blue
I2059255	Cavity Plug Green

**Voltage:** 32VDC. **Rating:** For use with 3 x Jcase fuses (20A - 60A)  
**Temperature rating:** 120°C (250°F).

**Materials:** Cover and housing - Nylon 66 **Seal:** Silicon.

**Terminals:** Tin Brass /Tin plate. **Stud -** Zinc plated steel.

**Ingress Protection Rating:** IP66. **Mounting:** Surface or Panel.

**Output Connector:** Delphi MP 630 series female connector.

**Notes:** Fuses, connector, TPA, terminals, seals and plug not included.

**3 Way Female Connector**

## MIDI FUSE DISTRIBUTION BLOCK 3 POLE

**Littelfuse**

**NEW**

**IGNITION PROTECTED**

**IP69K**

### Features:

Suited for near-the-battery applications and can be mounted in exposed locations. Single input power cable connects to a 3 pole internal busbar to feed 2 or 3 fused output cables. Eliminates splices & multiple fuse holders. 2 spare Midi fuses can be fitted to the inside of the cover. Water-proof and dust-proof fuse holder. Very high IP rating IP69K. Developed for high current loads, and harsh conditions.

Part Number	Fuse Block Description
04980933	3 Pole Midi Fuse Module Kit

### 04980933 Module Kit Contents

- 1 x Base with tethered cover & seal.
  - 1 x Busbar powers up to 3 fuses from a single input cable.
  - 6 x Nuts to secure up to 3 Midi fuses.
  - 6 x Cable seals of assorted sizes.
  - 1 x Cavity plug, required if you only install 2 x Midi fuses.
  - 2 x Cable seal caps to secure cable seals into unit.
  - 4 x Screws to secure 2 spare fuses to inside cover.
  - 1 x Instruction sheet.
- Module kit does not include ring terminals or fuses.

**Module Kit 04980933**

**Voltage:** 58VDC max. **Rating:** Maximum total current 200A.  
**Wire Size:** 16 or 25mm<sup>2</sup> (input cable), 6 to 16mm<sup>2</sup> (output cables).  
**Temperature Rating:** -40°C to +85°C. **Body & Cover:** UL 94-V0.  
**Ingress Protection Rating:** IP67, IP69K when cover, cable seals & caps are installed. Cables must not exceed the minimum bend radius advised in the included instruction sheet to ensure seal integrity.  
**Cavity Plug:** Included cavity plug must be fitted if using only 2 x Midi fuses.  
**Mounting:** Surface mount using 3 fixing holes (M6 or 1/4").

# FUSED BATTERY DISTRIBUTION UNIT 3 WAY SIDE MOUNT

**NEW**

## Features:

- Suits up to 3 x Midi fuses 32Vdc.
- Includes cover and internal adhesive label.
- Include 90 degree copper tin plated busbar.
- Angled busbar saves valuable bonnet space.
- Cable feeds through slots in the housing.
- Small size with easy access durable clip on lid.
- Includes 6 x M5 self locking nylon flanged nuts.

## 90 Degree Busbar

Side Mount

Part Number	Description
0300468	3 Way Midi Fuse Housing & 90° Busbar

**Voltage:** 32VDC  
**Rating:** 90A Max at 85°C.  
**Hardware:** Includes M5 flanged nuts.  
**Studs:** M5 threaded zinc plated steel studs.  
**Flammability:** UL94  
**Wire Size:** 8mm<sup>2</sup> to 35mm<sup>2</sup>  
**Operating Temperature:** -30°C to +120°C  
**Pack Size:** 1, 10, 100  
**Notes:** Fuses are not included.

Clip On Cover

# FUSED BATTERY DISTRIBUTION UNIT 3 WAY POST MOUNT

## Features:

- Suits 2 x Midi fuses and 1 x Mega fuse or Powerval fuse.
- Includes durable clip-on cover with distinct red housing.
- Cable feeds through slots in the housing.
- Double ring (19mm) connection to positive top post battery terminal.
- Fully insulated cap prevents accidental short circuits.
- Saves money by using one product that does the same as a battery terminal, terminated cable and a fuse box.

**Note:** Fused BDU includes 4 x M5 nuts with nylon insert, 2 x M8 nuts, 1 x M8 washer, busbar & housing. Fuses are not included.

# FUSED BATTERY DISTRIBUTION UNIT 10 WAY

## Features:

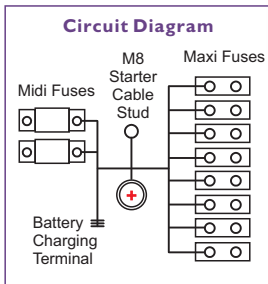

- Suits 8 x Maxi fuses & 2 x Midi fuses (not included).
- 2 Hinged covers for easy access to either Maxi fuses or Midi fuses.
- Simple double ring (19mm) connection to positive battery terminal.
- Includes battery charging terminal & one fuse puller.
- Opening for the starter cable to pass into unit.
- A large assortment of terminals & power connectors (not included).
- 4 colour-coded sockets for polarized power connectors to Maxi fuses.
- Common feed powers all fuse positions.

## Part

Part Number	Description
00710	10 Way Fused Battery Power Distribution Unit (Pack 1)
40300	Maxi Fuse Connector F Black - Non polarized (Pack 1)
40310	Maxi Fuse Connector F Blue - Polarized (Pack 1)
40340	Maxi Fuse Connector F Grey - Polarized (Pack 1)
40325	Maxi Fuse Connector F Green -Polarized (Pack 1200)
40335	Maxi Fuse Connector F Brown -Polarized (Pack 1200)
07650	Maxi Fuse Connector F Terminal 1.5 to 2.5mm <sup>2</sup> 20A (BK/RL)
07660	Maxi Fuse Connector F Terminal 4 to 6mm <sup>2</sup> 36A (BK/RL)
07670	Maxi Fuse Connector F Terminal 8 to 10mm <sup>2</sup> 50A (BK/RL)
07671	Maxi Fuse Connector F Terminal 16mm <sup>2</sup> 75A (BK/RL)
08240RL	Midi Fuse Terminal 2.5 to 4mm <sup>2</sup> 28A, M5 (RL) (Pack 3000)
08245RL	Midi Fuse Terminal 6.0 to 8mm <sup>2</sup> 48A, M5 (RL) (Pack 2400)
08250RL	Midi Fuse Terminal 10 to 16mm <sup>2</sup> 75A, M5 (RL) (Pack 2400)
05925RL	Midi Fuse Terminal 25 to 35mm <sup>2</sup> 125A, M5 (RL) (Pack 800)

## Ordering Notes:

1. Distribution unit does not include fuses, terminals or connectors.
2. Only 1 x Midi terminal is required for each Midi fuse.
- 3.\*Each connector plugs into 2 x Maxi fuses and requires 2 terminals. Non-polarized (black) connector plugs into any of the 4 sockets. Polarized connectors only plug into their colour-coded socket eg. blue connector into blue socket. Each connector plugs into 2 x Maxi fuses.

## MEGA FUSE HIGH POWER DISTRIBUTION MODULE 2 POLE

The 2 Pole High Power Distribution Module (HPDM) provides two high current Mega fuse protected circuit outputs as well as an un-fused output that can optionally be used to parallel multiple modules or deliver power to circuits which do not require circuit protection or to daisy chain multiple devices.

Part Number	Description
880195400	2 Pole with cover

**Voltage:** 48VDC (limited by fuses).  
**Max Input Current:** 600A  
**Max Fuse Rating Per Circuit:** 300A  
**IP Rating:** IP67, IP69K  
**Dimensions:** 129 x 125 x 45mm  
**Notes:** Mega fuses not included.

Either side can be input or un-fused output.

## MEGA FUSE DISTRIBUTION BLOCKS 2-5 POLES

Heavy duty power distribution module for main branch primary fusing. The common bus bar requires just one input connection to power all the fuses.

Part Number	Description
LMG2-1-001	2 Pole with stud input and cover
LMG3-1-001	3 Pole with stud input and cover
LMG5-1-001	5 Pole with stud input and cover

**Rating:** Maximum total combined rating is 300A continuous.\*  
**Body:** Black UL-Rated 94 V0 thermoplastic.  
**Studs:** 5/16" - 18 plated steel (E), optional M8 metric studs(M).  
**Hardware:** Includes busbar, nuts & lock washers.  
**Temperature:** -40°C to 85°C.  
**Cover:** Red EPDM (protection from accidental shorts).  
**Notes:** \*Maximum ampere rating based on numerous variations possible between numbers of poles used, fuses selected, input and output wiring. Mega fuses are not included.

# 4 X MEGA & 2 X MIDI DISTRIBUTION BLOCK

**IP66** **NEW**

The Littelfuse LTX Power Distribution Module is a high current sealed primary fuse box that can be placed in or near the battery box to fuse major feeder cables. The unit features a single bussed power input to all 4 MEGA® and 2 MIDI® fuses.

### Features

- Common power input reduces the number of large gage cables that need to attach to battery .
- Put all the high current fusing in one sealed location (IP 66)\*.
- Gore-Tex breather prevents temperature changes from pulling in moisture.
- Broad range of values for MEGA® and MIDI® fuses allow for use in a variety of applications.

**Voltage:** 32VDC.

**Max Total Current:** 240A.

**Terminal Stud Size:** M5 (Midi fuse) / M8 (Mega fuse).

**Flammability Rating:** UL94-V0

**Input Wire Size:** 50mm<sup>2</sup>.

**Output Wire Sizes:** 16-35mm<sup>2</sup> (Mega), 10-16mm<sup>2</sup> (Midi)

**Hardware:** S/S nuts & spring washers included.

**Seals & Plugs:** Not included, please order separately.

**Ingress Protection Rating:** IP66.

Seals / plugs must be installed to achieve IP66 rating. Please ensure seal flange is completely pressed through the hole to ensure a good seal on the inside of the block as shown in the image.

**Temperature Rating:** -40 °C to +120 °C

**Notes:** A cavity plug is required for each opening that is not fitted with a cable & cable seal. Fuses are not included.

Part Number	Fuse Block Description
07981002ZXS	6 Pole Fuse Block with Cover, Busbar, Nuts & Washers.

## 2 X MEGA & 3 X MIDI DISTRIBUTION BLOCK 70V

**NEW**

**IP69K**

The MDB5 is a sealed high current primary fuse box that can be placed in the battery box or under hood as the first line of circuit protection and power distribution for a vehicle. It can fit 2 x MEGA and 3 x MIDI fuses. Input power can be connected using one or two input cables depending on continuous current requirement. When fitted with included seals it is IP67/69K rated providing high protection in harsh environments. Yellow tool-less latches secure the cover which acts as secondary lock to hold in cable seals even when wires are arranged for routing.

### Features

- Sealed primary fusing that can be placed close to the battery in a harsh environment.
- Capability to handle fuse ratings from 23-500A and voltages up to 70V.
- Full range of fuses for applications from 12V-48V+.
- User choice of either unsealed or IP67/69K rating when fitted with included seals.
- Poke-Yoke mounting pattern for easier assembly.

Part Number	Fuse Block Description
07985003ZXS	5 Pole Fuse Block with Cover & Seal, Busbar, Nuts, Washers and Cable Seal Kit (as detailed below).

**Voltage:** 70VDC.

**Continuous Current:** 400A with two inputs or 200A with one input.

**Terminal Stud Size:** 3 x M5 (Midi fuse) / 2 x M8 (Mega fuse).

**Input Stud Size:** 2 x M8

**Input Wire Size:** 50mm<sup>2</sup>.

**Output Wire Sizes Mega:** 2 positions : 16mm<sup>2</sup>, 25mm<sup>2</sup>, 35mm<sup>2</sup>

**Output Wire Sizes Midi:** 3 positions : 6-10mm<sup>2</sup>, 10-16mm<sup>2</sup>

**Hardware:** S/S nuts & spring washers included.

**Fuse Terminal Torque Mega:** 32V 15 ± 3Nm, 70V 20 ± 1Nm

**Fuse Terminal Torque Midi:** 32V 6 ± 1 Nm, 70V 9 ± 1Nm

**Flammability Rating:** UL94-V0

**Cable Seals & Cavity Plugs Assortment:** Included.

**Ingress Protection Rating:** IP69K with seals installed.

Seals / plugs must be installed to achieve IP66 rating. Please ensure seal flange is completely pressed through the hole to ensure a good seal on the inside of the block as shown in the image.

**Temperature Rating:** -40 °C to +105 °C

**Notes:** A cavity plug is required for each opening that is not fitted with a cable & cable seal. Cable seals and cavity plugs must be fully pressed into block. Fuses are not included.

### Included Cable Seal Kit:

- 2 x Input Cable Seal 50mm<sup>2</sup>
- 1 x Input Cavity Plug
- 2 x Output Seal Mega 35mm<sup>2</sup>
- 1 x Cavity Plug Mega
- 3 x Output Seal Midi 10-16mm<sup>2</sup>
- 1 x Cavity Plug Midi

## 4 X AUTO FUSE & 3 X MIDI FUSE PDM

**TERRA**  
POWER SYSTEMS

**Littelfuse**

The 880076 SL series integrated fuse block is designed to power to 3 x switched high-amp circuits using either a remote switch or the manual switch on the block. This block also includes 4 x low-amp always-on circuits to power loads like clock, alarms etc. All 7 x output circuits are fuse protected. Power is output via 3 studs (high-amp circuits) or a single 4 wire connector (low-amp circuits).

**NEW**

**IP59K**

Part Number	Description
880076	Power Dist Module with Remote & Manual On/Off Switch
880092	Illuminated Remote Control Switch SPDT (On)Off(On)
MX150FK6	6 Way Remote Switch Connector Kit. Terminals included.
XTCK4	4 Way Plug Connector Kit. Terminals included.

**Voltage:** 32VDC (limited by fuses).  
**Switch Continuous Ampere Rating:** 300A at 85°C, 240A at 105°C  
**Switch Cranking Rating:** 10 sec. 1000A  
**Max Operating Ampere Per Block:** 240A (Midi fuse), 50A (Auto fuse)  
**Max Operating Ampere Per Circuit:** 170A (Midi fuse), 20A (Auto fuse)  
**Fuse Ampere Ratings:** 30A-200A (Midi fuse), 1A-20A (Auto fuse)  
**Studs:** Tin-plated copper, M8 x 1.25  
**Midi Fuse Screws:** M5 x .8 x 10  
**Hardware:** Stainless steel  
**Operating Temperature:** -50°C to 105°C  
**Module Contents:** Includes cover with gasket.  
**Mounting:** Mount as close as possible to the battery, but not above vented lead acid batteries. Mount in a dry protected location. Where possible mount in a vertical orientation. Do not mount upside down.  
**IP Rating:** IP59K / IP66  
**Ignition Protected:** SAE J1171, ISO 8846  
**Dimensions (LxWxH):** 146 x 122 x 73mm  
**Notes:** Auto fuses, Midi fuses and connectors are not included.

# FUSED POWER DIST. MODULE SEALED - 4 WAY

**IP67**

**Features:**

- Accommodates low to medium current fuses. Amperage range 2 A to 60A.
- Accommodates 2 x Mini fuses (fast acting) and 2 x Jcase fuses (slow acting).
- Internal bussing. One input connection to power four fuse circuits.
- Secondary locks are included to secure each wire terminal in the holder.
- The holder is a sealed module enabling it to be used in heavy duty environments.

**PDM Module  
BPDMA104HXF1**

**Voltage:** 32VDC    **Temperature Rating:** -40°C to +85°C.  
**Rating:** 100A at 23°C, 70A at 85°C.

Fuses not to exceed 70% of rated current continuously.

**Body & Cover:** Black thermoplastic UL 94V-0.

**Mounting:** Screw mount M6 (torque: 6-8Nm).

**Cover Gasket:** Green silicone.    **Ingress Protection Rating:** IP67

When cover, cable seals & cavity plugs are installed.

**Input Stud:** M6 zinc plated steel (torque: 6-8Nm)

**Terminal Ratings:** 30A max per terminal (Mini fuse).  
60A max per terminal (Jcase fuse).

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals.

**Cavity Plugs:** Required to fill unused output cavities for ingress protection.

**Terminal Tools:** Terminal crimping & removal tools p. 185-186.

**Secondary Locks:** PA66 (TPA's included).

**Notes:** Terminals, cable seals, cavity seals & fuses are not included.

Mini bladed circuit breakers are not suitable for use in this product.

**Approvals:** RoHS

**PDM Module & Terminal Kit  
PDMKIT101**

Part Number	Module & Terminal Kit Contents:
PDMKIT101	Base, Cover, Seal, Bracket, 3 x TPA's, Terminals (2 x 12129493, 2 x 15344631), Cable Seals (2 x 15324980, 2 x 15324994), Plugs (1 x 12010300, 1 x 12059255).

Part Number	Module Contents:
BPDMA104HXF1	PDM Module includes: Base, Cover, Seal, Bracket and 3 x TPA's only.

## ACCESSORIES TO SUIT MINI FUSES: Delphi Metri-Pack 280

**TERMINALS: TANGED**

Female Sealed - Tin Brass /Tin Plated

**CABLE SEALS:**

Silicone

**CAVITY PLUG:**

Silicone

Part Number	Wire (AWG)	Wire (mm <sup>2</sup> )
12084201	#22 - #20	0.35 - 0.5

# POWER DIST. MODULE SEALED - 8 POSITION

**EATON** Busmann

**IP66**

This module can be fitted with a mixture of 280 style components such as Mini fuses, mini circuit breakers, mini diodes, mini resistors and ISO 280 relays. It's compact size means it can be installed anywhere thereby eliminating excessive wiring in harnesses.

**Voltage:** 32V **Temperature:** -40°C to +125°C  
**Rating:** 120A max\* (100A when following SAE guidelines)  
 Combined maximum current of positions 1 & 2 is 60A for fuses / 30A for circuit breakers. The same applies for positions 3 & 4.  
 Module is rated 50A max when fitted with an ISO 280 micro relay.  
 \*Please contact sales for max amperage guidelines

**Module Contents:** Module includes cover, base with seal & bracket.

**Terminal Capacity:** 8 terminals on a layout matrix of (2 x 4).

**Terminals:** Delphi Metri-Pack 280 Female Sealed TANGED.

**Cover:** 94V0 Clear Polycarbonate. Short or tall cover options.

**Base:** 94V0 Thermoplastic black. Other colour also available.

**Bracket Option:** Side B028-7013, End B028-7015, Pin B028-7016.

**Ingress Protection Rating:** IP66 (Valid when properly installed with cover, cable seals and cavity plugs).

**Cavity Plugs:** Required to fill unused output cavities for ingress protection. Silicone material UL94-V0.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals. Silicone material UL94-V0.

**Terminal Tools:** Terminal crimping & removal tools page 185-186.

**Pack Size:** 1, 10, 100

**Notes:** Fuses, circuit breakers and relays are optional extras.

**PDMKITALS1, Tall Cover PDM Kit**

**Mini Fuses Installed**

**Ultra Micro Relay, Mini Fuse & Breaker**

**Part Number** **Kit Contents:**

PDMKITALS1	Tall Cover*, Base, Side Bracket, 8 x 3.0mm <sup>2</sup> Terminals, 8 x Seals, 4 x Plugs & TPA	<b>NEW</b>
PDMKITASS1	Short Cover, Base, Side Bracket, 8 x 3.0mm <sup>2</sup> Terminals, 8 x Seals, 4 x Plugs & TPA	<b>NEW</b>

**Part Number** **Description**

CFH-ALS	Tall Clear Cover*, Base and Side Bracket	
CFH-ALE	Tall Clear Cover*, Base and End Bracket	<b>NEW</b>
CFH-ASS	Short Clear Cover, Base and Side Bracket	
CFH-ASE	Short Clear Cover, Base and End Bracket	<b>NEW</b>
I2084201	Terminal Female (# 22-20AWG), 0.35 - 0.5mm <sup>2</sup>	
I2077411	Terminal Female (# 18-16AWG), 0.80 - 1.0mm <sup>2</sup>

# POWER DIST. MODULE SEALED - 12 POSITION

**IP69K IP67**

The HWB12 series is a 12 position power distribution module providing a compact, durable and sealed power distribution solution for the transportation market. This unit is designed for 280 style components such as Mini blade fuses, Mini circuit breakers, 280 Relays, Mini diodes etc. with 2.8mm blades on 8.1mm centerline spacing.

**Module Contents:** Module includes clear cover, base, cover seal, straight mounting bracket and 3 secondary terminal locks (TPA's).

**Accessory Components:** Terminals, cable seals & cavity plugs, mini fuses, mini blade circuit breakers, ISO 280 ultra micro and ISO 280 micro relays.

**Terminal Capacity:** 12 terminals on a layout matrix of (2 x 6).

**Voltage Rating:** 58VDC

**Maximum Continuous Current:** 130A

**Maximum Fuse Rating:** 30A per circuit.

**Temperature Rating:** -40°C to +105°C.

**Housing:** PA66 GF30, Black, UL 94 V-0

**Cover:** Clear UL94 V-2 **Cover Seal:** Silicone, green.

Cover must be oriented correctly in order to secure yellow tabs.

**Mounting Bracket:** Plated steel - straight (standard).

**Wire Size:** #22 - #13 AWG (0.35 to 2.5mm<sup>2</sup>).

**Ingress Protection Rating:** IP67/IP69K when cover, cable seals & cavity plugs are installed.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals.

**Terminals:** Tyco AMP MCP 2.8, Female Copper Nickel / Tin Plated.

**Terminal Tools:** Terminal crimping & removal tools refer p.185-186.

**Options:** 30 deg. angled mounting bracket, black cover, cover tether and foam relay retention inserts.

**Note:** It is recommended that one foam insert be ordered for each relay & installed onto the inside of the cover as a retention device.

**PDM Module & Terminal Kit  
PDMKIT331**

Part Number	Kit Contents:
PDMKIT331	Module Base, Clear Cover, Straight Bracket, 3 x TPA's, 12 x 2.5mm <sup>2</sup> Terminals, 12 x Cable Seals & 4 x Cavity Plugs. <b>NEW</b>

Part Number	Description
PDM33003ZXM	PDM Module, Clear Cover, Straight Bracket, 3 x TPA's.
1-968875-1	Terminal Female (#20 - #16AWG), 0.5 - 1.0mm <sup>2</sup>
1-968876-1	Terminal Female (#16 - #14AWG), 1.5 - 2.5mm <sup>2</sup>
828904-1	Cable Seal Blue Silicone, 1.2 - 2.1mm Cable Dia.
828905-1	Cable Seal White Silicone, 2.2 - 3.0mm Cable Dia.
828922-1	Cavity Plug Clear Silicone, 5.6mm Cavity inside Dia.
901-327	Foam Relay Retention Insert (optional).
868-068	Angled Bracket 30 Degree (optional).
890009470	Cover Tether (optional).

# POWER DIST. MODULE SEALED - 18 POSITION

**IP69K IP67**

The HWB 18 series is an 18 position power distribution module providing a compact, durable and sealed power distribution solution. This unit is designed for 280 style components such as mini blade fuses, circuit breakers, relays, diodes etc. with 2.8mm blades on 8.1mm centerline spacing.

**PDM Module Kit Contents:** Module kit includes cover, cover seal, base, mounting bracket 30° angled and 3 secondary terminal locks (TPA's).

**Accessory Components:** Terminals, cable seals & cavity plugs, mini fuses, mini blade circuit breakers, Ultra micro 280 & Micro 280 relays.

**Terminal Capacity:** 18 terminals on a layout matrix of (3 x 6).

**Terminal Rating:** 30A max per terminal. **Maximum Fuse Rating:** 30A

**Maximum Total Continuous Current:** 100A @ 23°C, 70A @ 85°C

**Voltage Rating:** 58VDC Max. **Temperature Rating:** -40°C to +105°C.

**Body & Cover:** Black UL 94V-0 glass filled thermoplastic.

**Body Seal:** Silicone.

**Mounting Bracket:** Plated steel - 30° angled (standard).

**Ingress Protection Rating:** IP67 / IP69K when cover, cable seals and cavity plugs are installed.

**Wire Size:** #22 - #10 AWG (0.35 to 5mm<sup>2</sup>).

**Cavity Plug:** Required to fill unused output cavities for ingress protection.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals.

**Terminals:** Delphi Metri-Pack 280 Female Sealed TANGED.

**Terminal Tools:** Terminal crimping & removal tools see page 185-186.

# PDM SEALED MODULE - 60 POSITION

**NEW**

**IP69K IP67**

The Littelfuse HWB60-AL (Assured Latch) features 60 open positions with no internal bussing. It is designed for use with 280 style components i.e. Mini fuses, Mini Circuit Breakers, Mini Diodes / Resistors, Ultra Micro 280 Relays, Micro 280 Relays, Mini 280 Relays, 280 Flashers.

- Terminal Capacity:** 60 terminals on a layout matrix of (5 x 12).
- Terminal Rating:** 30A max per terminal.
- Maximum Fuse Rating:** 30A
- Maximum Total Continuous Current:** 250A
- Voltage Rating:** 58VDC Max.
- Wire Size:** #22 - #10 AWG (0.35 to 5mm<sup>2</sup>).
- Temperature Rating:** -40°C to +125°C.
- Base & Cover:** PA66 30% GF. **Cover Gasket:** Silicone.
- Mounting:** 4 holes for M6 bolts (4 - 6Nm max torque).
- Terminals:** Delphi Metri-Pack 280 Female Sealed TANGED.
- Cavity Plugs:** Fill unused output cavities for ingress protection.

- Cable Seals:** Check the overall diameter of your cable before ordering cable seals.
- Ingress Protection Rating:** IP67 / IP69K when cover, cable seals and cavity plugs are installed.
- Options:** Cover tether. Accessory to hold a fuse puller & spare fuses. Internal cover grid to aid relay retention.
- Feature:** Gang mount feature interconnects multiple modules side-by-side.
- Interlocks** with Littelfuse Auto fuse block, Midi-Flex fuse block, Mega-Flex fuse block and FLEC.
- Base Features:** Internal storage for 8 spare fuses. Terminal position numbering on underside of base.
- Terminal Tools:** Terminal crimping & removal tools see page 185-186. **Notes:** Fuses and relays are not included.

Part Number	PDM Kit Description:
PDMKIT711	Module, Terminals (60 x 12129493), Cable Seals (60 x 15324980) and Plugs (10 x 12010300).
PDMKIT712	Module, Pre-terminated Cables 2.0 x 300mm (30pcs x Red & 30pcs x Blue), Pre-terminated Jumpers Red (5pcs), Butt Connectors (60pcs) & Cavity Plugs (10pcs).

Part Number	Description
PDM11003ZXM	PDM Module Base, Cover and 6 x TPA's. No accessories.
12084201	Terminal Female (#22-20AWG), 0.35 - 0.5mm <sup>2</sup>
12077411	Terminal Female (#18-16AWG), 0.80 - 1.0mm <sup>2</sup>
12129493	Terminal Female (#14-12AWG), 2.0 - 3.0mm <sup>2</sup>
12077413	Terminal Female (#10AWG), 5.0mm <sup>2</sup>
15324983	Cable Seal Dark Red Silicone, 1.70 - 1.29mm Cable Dia.
15324982	Cable Seal Green Silicone, 2.85 - 2.03mm Cable Dia.
15324980	Cable Seal Grey Silicone, 3.49 - 2.81mm Cable Dia.
15324981	Cable Seal Blue Silicone, 4.30 - 3.45mm Cable Dia.
12010300	Cavity Plug Green Silicone, 6.7mm Cavity inside Dia.

# POWER DIST. MODULE SEALED - 24 POSITION

**GEP**  
POWER PRODUCTS

**NEW**  
**IP66**

The FRH-A24 series module is a 24 position power distribution module providing a compact, durable and sealed power distribution solution for the transportation market. This module can be fitted with a mix of 280 style components such as Mini fuses, mini circuit breakers, mini diodes, diode keys, mini resistors, ISO 280 Ultra Micro and ISO 280 Micro relays.

**Voltage Rating:** 32VDC

**Terminal Capacity:** 24 terminals on a layout matrix of (4 x 6).

**Terminal Rating:** 20A continuous, 30A intermittent.

**Terminals:** Delphi Metri-Pack 280 Female Sealed TANGED.

**Temperature Rating:** -40°C to +125°C.

**Housing:** Black thermoplastic. **Seal:** Silicone, red.

**Mounting Bracket:** Stainless steel, straight with anti-rotation tab.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals. Silicone material UL94-V0.

**Cavity Plugs:** Required to fill unused output cavities for ingress protection. Silicone material.

**Ingress Protection Rating:** IP66.

**Terminal Tools:** Terminal crimping & removal tools available.

**Module Accessories:** Optional 90 degree mounting bracket.

**Components:** Mini fuses, mini circuit breakers and ISO 280 relays are not included with the kit.

**Approvals:** RoHS

Part Number	Kit Contents:
PDMKIT424	Base, Cover, Seal, Bracket, 2 x TPA's, 1 x CPA, Terminals (26 x 12129493), Seals (26 x 15324980), Cavity Plugs (6 x 12010300).

Part Number	Description
FRH-A24	PDM Housing Black and Seal Red. 24 Position.
FRH-A24-C	PDM Cover Black
FRH-A-CPA	PDM CPA Blue Cover Position Assurance.
FRH-A12-MB-A2	Flat Bracket Anti-Rotation Tabs Stainless Steel.

# POWER DIST. MODULE SEALED - 72 POSITION

**GEP** POWER PRODUCTS

**NEW**  
**IP66**

This sealed, compact and rugged module is an excellent power distribution solution for marine, construction, agriculture, heavy trucking, and specialty vehicle industries. It accommodates 72 terminal positions to provide component flexibility for the increasing demands of modern electrical systems.

**Voltage Rating:** 32VDC

**Output Rating:** 30A max per terminal.

**Terminal Capacity:** 72 terminals on a layout matrix of (6 x 12) suited to 2.8mm blades on 8.1mm centerline spacing.

**Components:** Accepts Mini fuses, Mini bladed circuit breakers, ISO 280 Micro relays and ISO 280 Flashers.

**Mounting:** Top mount: 2 x M6 threaded insert clips.  
Side mount: 2 x 10.5mm holes.

**Block & Cover:** Thermoplastic, black PBT Polyester. **Cover Seal:** Silicone.

**Ingress Protection Rating:** IP66

(Valid when properly installed with cover, cable seals and cavity plugs).

**Wire Size:** #22 - #10 AWG / 0.35mm<sup>2</sup> - 5mm<sup>2</sup>

**Cavity Plugs:** Required to fill unused output cavities for ingress protection.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals.

**Terminal Tools:** Terminal crimping & removal tools available.

**Temperature Rating:** -40°C to +125°C (Module only)

**Ordering:** Block is supplied with cover only.

**Not Included:** Terminals, cable seals, cavity plugs or mounting screws. Module does not include any plug-in components such as fuses, circuit breakers, relays etc.

**Feature:** Gang mount feature. Interconnect multiple modules side-by-side.

**Options:** Custom labels and kits.

**Approvals:** [RoHS](#)

# POWER DIST. SEALED MODULE - 96 POSITION

**GEP**  
POWER PRODUCTS

**NEW**  
**IP66**

Increased power distribution requirements in today's vehicles creates the need for additional component capacity to support electrical system integrity. To meet these increasing power challenges, GEP has released a 96 terminal position module. This new sealed, compact, and rugged module offers more configuration options for transportation and off-road applications.

**Voltage Rating:** 32VDC

**Output Rating:** 30A max per terminal.

**Terminal Capacity:** 96 terminals on a layout matrix of (8 x 12). Suited to 2.8mm blades on 8.1mm centerline spacing.

**Components:** Accepts Mini fuses, Mini bladed circuit breakers, ISO 280 Micro relays and ISO 280 Flashers.

**Mounting:** Top mount, 10mm threaded inserts.

Other mounting holes and orientations available, contact sales.

**Block & Cover:** Thermoplastic, black PBT Polyester.

**Cover Seal:** Silicone.

**Ingress Protection Rating:** IP66.

(Valid when properly installed with cover, cable seals and cavity plugs).

**Wire Size:** #22 - #10 AWG / 0.35mm<sup>2</sup> - 5mm<sup>2</sup>

**Cavity Plugs:** Required to fill unused output cavities for ingress protection.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals.

**Terminal Tools:** Terminal crimping & removal tools available.

**Temperature Rating:** -40°C to +125°C (Module only)

**Ordering:** Block is supplied with cover only.

**Not Included:** Terminals, cable seals, cavity plugs or mounting screws.

Module does not include any plug-in components such as fuses, circuit breakers, relays etc.

**Options:** Custom labels and kits.

**Approvals:**

# POWER DIST. MODULE SEALED - 60 POSITION

**EATON** Bussmann

**IP66**

This unit features 60 open positions with no internal bussing. It is designed for use with 280 style components (i.e. Mini fuses, 280 Relays, diodes, resistors, etc.) and provides efficient power distribution in a rugged compact form with applications in marine, construction, agriculture, heavy trucking, and specialty vehicle industries.

**Output Rating:** 30A max per terminal.

**Terminal Capacity:** 60 terminals on a layout matrix of (6 x 10) suited to 2.8mm blades on 8.1mm centerline spacing.

**Mounting:** Includes threaded inserts # 10-32 as standard (M5 optional).

**Base:** Features letter/number grid front & rear for easy reference of each terminal position. Black thermoplastic with red rubber gasket.

**Cover:** Black thermoplastic. Improved latch design & tether strap.

**Cover Options:** Replacement covers also available.

Shallow cover includes Gore vent (Mini fuses only) # B151-7168-1-J.

Deep cover (Mini fuses / ISO 280 relays / Mini breakers) # B151-7168-2-J.

**Temperature Rating:** -40°C to +125°C (PDM only).

**Wire Size:** #20 - #12 AWG / 0.5mm<sup>2</sup> - 2.5mm<sup>2</sup>

**Ingress Protection Rating:** IP66 - IEC 529 (valid only when cover, cable seals and cavity plugs are properly fitted).

**Cavity Plugs:** Required to fill unused output cavities for ingress protection.  
**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals.

**Terminal Tools:** Terminal crimping tools (p. 185).

**Not Included:** Terminals, cable seals, cavity plugs, mounting brackets or mounting screws. Module does not include any plug-in components.

## 60 WAY MODULE & COVER (No Bussing):

# MINI FUSE SEALED MODULE - 20 WAY

**NEW IP66**

This weatherproof 20 x Mini fuse module designed to provide fuse protected power for up to 20 circuits. The unit is powered by 2 separate power input studs, each stud powers 10 Mini fuse positions. The module can be ordered with a shallow cover to suit Mini Fuses, or with a deep cover if you want to fit Mini Blade Circuit Breakers which are taller.

Suits applications in marine, construction, agriculture, heavy trucking, specialty vehicles and 4x4 wheel drives.

This new I5305 series RTMR has new refinements but remains backward compatible and interchangeable with the original I5303 series RTMR.

20 x Mini Fuses

20 x Mini Fuses or Mini Circuit Breakers

## MODULE KITS

Part Number	Description
PDMKIT-163T	20 x Mini Fuse module kit with shallow cover
PDMKIT-164T	20 x Mini Fuse / circuit breaker kit & deep cover

### KIT CONTENTS

- Both kits include the following:
- 1 x Module with either shallow or deep cover
- 1 x Medium profile bracket
- 4 x Bolts & washers for mounting module to bracket
- 5 x Terminals 0.8 - 1.0mm<sup>2</sup> (# 18-16 AWG)
- 20 x Terminals 1.0 - 2.0mm<sup>2</sup> (# 16-14 AWG)
- 5 x Terminals 2.0 - 3.0mm<sup>2</sup> (# 14-12 AWG)
- 5 x Cable seals 2.03 - 2.85mm diameter cable
- 20 x Cable seals 2.81 - 3.49mm diameter cable
- 5 x Cable seals 3.45 - 4.30mm diameter cable
- 10 x Cavity plugs
- 1 x Instruction book (download via QR code)
- 1 x Fuse circuit identification label

**Note:** Fuses and circuit breakers are not included. Please refer for page 133 for dimensions.

# MINI FUSE, MINI / MICRO RELAY SEALED MODULE

**EATON** Bussmann

**NEW IP66**

This weatherproof 5 x Micro Relays & 10 x Mini Fuse / Circuit Breaker module is designed to provide fuse protected power and relay switching. Relays and fuses can be wired together or independently of each other. All fuses are powered by a single power input stud. A secondary input stud connects all relay coil pins (86) to either Negative or Positive power via an internal buss.

Suits applications in marine, construction, agriculture, heavy trucking, specialty vehicles and 4x4 wheel drives.

This new I5305 series RTMR has new refinements but remains backward compatible and interchangeable with the original I5303 series RTMR.

**5 x Micro 280 Relays  
10 x Fuses / Breakers**

## MODULE KIT

Part Number	Description	Internal Bussing
PDMKIT-264T	5 x Relays & 10 fuses / breakers	Fuse & relay buss*

### KIT CONTENTS

Both kits include the following:

- 1 x Module with deep cover
  - 1 x Medium profile bracket
  - 4 x Bolts & washers for mounting module to bracket
  - 10 x Terminals 0.8 - 1.0mm<sup>2</sup> (# 18-16 AWG)
  - 35 x Terminals 1.0 - 2.0mm<sup>2</sup> (# 16-14 AWG)
  - 10 x Terminals 2.0 - 3.0mm<sup>2</sup> (# 14-12 AWG)
  - 10 x Cable seals 2.03 - 2.85mm diameter cable
  - 35 x Cable seals 2.81 - 3.49mm diameter cable
  - 10 x Cable seals 3.45 - 4.30mm diameter cable
  - 20 x Cavity plugs
  - 1 x Instruction book (download via QR code)
  - 1 x Fuse / relay circuit identification label
- Note:** Fuses, circuit breakers & relays are not included. Please refer to page I33 for dimensions.

**Components:** Accepts Mini fuses, Mini bladed circuit breakers, Mini 280 relays & Micro 280 relays and 280 Flashers.

**Input Stud Rating:** 80A max.

**Output Terminal Rating:** 30A max per terminal.

**Block:** Black thermoplastic with silicone seal.

**Cover:** Black thermoplastic with tether.

**Internal Buss:** Tin-plated copper (bussed versions).

**Input Studs:** M6 stud nickel plated brass (bussed versions only).

**Wire Size:** #22 - #12 AWG / 0.35mm<sup>2</sup> - 3mm<sup>2</sup>.

**Ingress Protection Rating:** IP66-IEC 60529.

Valid when properly installed with cover, cable seals and cavity plugs (to fill all unused output cavities).

**Mounting:** Threaded inserts #10-32 as standard

**Mounting S/S Hardware (optional):**

Screw: #MT1032PPHS. Washer: #SW316S.

**Temperature Rating:** -40°C to +125°C (PDM only)

**Cover Options:** Replacement covers also available.

Shallow cover with Gore vent (Mini fuses only) # B151-7168-1-J. Deep cover (Mini fuses / breakers / 280 relays) # B151-7168-2-J

**Notes:** Module includes cover. Stud caps included for bussed versions. Kits include terminals, seals and a bracket. All other parts to be ordered separately.

# MINI FUSE & MICRO RELAY SEALED MODULE

**EATON** Bussmann

**IP66**

Designed to provide efficient power distribution in a rugged compact form with applications in marine, construction, agriculture, heavy trucking, and specialty vehicle industries. It accommodates a combination of up to 40 x Mini fuse or Mini bladed breakers and 10 x ISO 280 Micro relays. Also features a slot to hold a fuse puller and 4 slots for spare fuses. Optional common bussing for fuses.

**Voltage Rating:** 32VDC

**Ampere Rating:** 200A max.

**Components:** Accepts Mini fuses, Mini bladed circuit breakers and ISO 280 Micro relays.

All components must have 2.8mm blades on 8.1mm centerline spacing.

**Mounting:** Threaded inserts # 10-32 as standard (M5 optional).

Intended for horizontal to vertical mounting orientations.

**Block & Cover:** Black UL-Rated 94V0 thermoplastic. Silicone rubber gasket. Deep cover with internal tether. Cover included with base.

**Cover:** Replacement deep cover available. # B151-7182-1.

Suits Minifuses, ISO 280 Micro relays and Mini bladed circuit breakers.

**Internal Buss:** Plated copper (optional, feeds fuses only)

**Input Studs:** M8 x 1.25 stud (on bussed versions).

**Input Stud Rating:** 100A max per bus bar

**Output Terminal Rating:** 30A max per terminal.

**Ingress Protection Rating:** IP66 (Valid when properly installed with cover, cable seals and cavity plugs).

**Wire Size:** #22 - #12 AWG / 0.35mm<sup>2</sup> - 3mm<sup>2</sup>

**Temperature Rating:** -40°C to +85°C (Module only)

**Terminals:** Delphi Metri-Pack 280 Female Sealed (Tanged)

**Cavity Plugs:** Required to fill unused output cavities for ingress protection.

**Cable Seals:** Please check the overall diameter of your cable before ordering cable seals.

**Terminal Tools:** Terminal crimping & removal tools see pages 185 - 186.

**Ordering:** Block is supplied with cover & one nut for each input stud.

**Pack Size:** 1pc, 20pcs, 100pcs.

**Not Included:** Terminals, cable seals, cavity plugs, mounting brackets or mounting screws.

Module does not include any plug-in components such as fuses, circuit breakers, relays or the fuse puller.

**40 x Mini Fuses or Mini Breakers  
and 10 x ISO 280 Micro Relays.**

## MODULES & COVER OPTIONS :

Part Number	Mini Fuse Positions*	Fuse Bussing	Left Fuse Side	Right Fuse Side	Relay Contents	Nbr of Cavities	Max Nbr of Terminals
I5401-1-2-1-0A	40x Mini Fuses	Dual	Bussed	Bussed	10x ISO 280 Micro	130	90
I5402-1-2-1-0A	40x Mini Fuses	Single	Bussed	Unbussed	10x ISO 280 Micro	130	110
I5404-1-0-1-0A	40x Mini Fuses	No Bus	Unbussed	Unbussed	10x ISO 280 Micro	130	130

**Notes:** \* Mini circuit breakers can be fitted in mini fuse positions. Relays are un-bussed.

These distribution modules are designed for high current applications and suitable for placement in extreme moisture and high vibration environments. A silicone seal and included removable fuse cover offer a weather-tight enclosure for the fuse positions. Both modules feature rugged M8 power input studs. Multiple units may be connected together using a bus bar. They can also be bussed to any of Bussmann's PDM's (i.e. RTMR - p. 129-133, VEC / DVEC - p. 142 etc.)

IGNITION

IP66

### Power Fuse Module (PFM)

- Housing for 2 fuse positions.
- Each fuse is a separate circuit.
- Fuse cover included.

### Power Fused Relay Module (PRM)

- Includes a molded-in High Power Mini relay.
- Housing for 2 fuse positions. One fuse protects the relay and the other is a single-circuit inline fuse.
- Fuse cover included.

Fuse Cover

Fuse Cover

**Rating (PFM):** Each inline fuse; up to 60A.

**Relay Rating (PRM):** 70A (12VDC) or 25A (24VDC) steady-state relay.

**Relay Protection Fuse:** Up to 60A. Non-switched inline fuse; up to 60A.

**Temperature Rating:** -40 °C to +85 °C.

**Body:** UL-Rated 94V-0 thermoplastic with silicone seal.

**Terminals:** Tin-plated copper terminals.

**Studs:** Plated steel. Includes keeps nuts.

**Input Termination:** M8 threaded stud.

**Output Termination:** Two M6 threaded studs.

**Relay Signal Connector Kit:** Only for use with PRM's. (1.0 to 1.5mm<sup>2</sup>)

**Ingress Protection Rating:** IP66 (excluding stud connections).

**Mounting:** Counter Rotation Feature (CRF) included to prevent the module rotating on single bolt installations. 6.5x35.4 Mount Hole

**Bussing:** Use 3771 BUS busbars to join multiple PRM's/PFM's.

Stud insulator caps included with busbars.

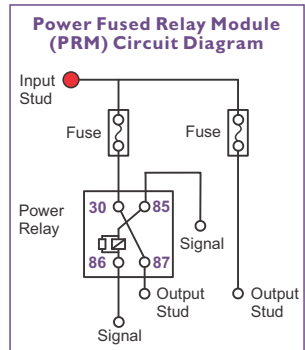

Contact sales for options to bus PRM's / PFM's to other Bussmann PDM's.

**Accessories:** Relay signal connector, bus bars, separators and fuses.

**Suitable Fuses:** JTFxxx (20A - 60A), not included.

**Notes:** Each Power Relay Module requires 1 x PRM Relay Signal Connector Kit (50126K) to control the relay. Fusible links are not included.

**Compliances:** SAE 31171 (Ignition protected).

Part Number	Description
37701-1NN0025	32V Power Fuse Module (PFM)
37702-1AN0025	12V Power Relay Module (PRM)
37703-1AN0025	24V Power Relay Module (PRM)
50126K	PRM Relay Signal Connector Kit
3771BUS-2	Twin Bus Bar With Stud Covers
3771BUS-3	Triple Bus Bar With Stud Covers
3771BUS-4	Quad Bus Bar With Stud Covers
B162-7003/J	Short Joiners / Output Stud Barriers
B162-7002/J	Long Joiners / Output Stud Barriers

## AUTO FUSE MODULAR BLOCK KIT - 16 WAY

Part Number  
00655K

### Fuse Block Kit Contents:

- 1 x 00670 (Clear Cover with Gasket)
  - 1 x 00650 (16 Way Housing with 5 Secondary Locks)
  - 1 x 00680 (Bottom Cover)
  - 35 x 07900 (Terminals 0.5 to 1.5mm<sup>2</sup> 14A, F 6.3mm)
  - 2 x 00690 (Mounting Bracket Male)
  - 2 x 00691 (Mounting Bracket Female)
- Fuse block can accommodate one fuse puller 00358.

### RELATED PRODUCTS:

**12VDC or 24VDC.**  
(See page I66)

**Optional Terminals F 6.3**  
01651IRL (2.5 - 6mm<sup>2</sup>)

### Features:

- All 3 blocks can be ganged to create a power distribution centre.
- Side wall locks can attach MTA Auto fuse holders. (p78)
- Side wall locks can attach MTA Mini & Maxi relay holders. (p171)

**Voltage:** 32V

### Maximum Continuous Current Ratings:

225A (00655K), 150A (00705K), 120A (00665K)

**Body:** Black, **Cover:** Transparent, includes gasket.

**Terminals:** Axial connections. Other terminal options include various terminal sizes, reeled and busbar types. Contact sales for further information.

**Notes:** Fuses, fuse extractor and relays are not included.

**Pack Size:** 1

**Approval:** RoHS

**Side wall lateral lock feature.**  
**Add MTA fuse or relay holders.**

Mounting: M8 screw

Overall Height: 64mm

To simplify ordering, we now offer Module Kits which include suitable terminals for the components. If you wish to order a module without terminals, simply remove the 'K' suffix from the part number. Once you have selected the module(s), select a mounting bracket or frame and a cover to suit your installation. **Note:** Plug-in components such as fuses, relays, pullers etc. are not included with the modules or module kits.

## FUSE MODULE KITS - INCLUDES MODULE & TERMINALS

Part Number	Module Capacity	Terminals Included in the Kit
01460K I	20 x Mini Fuses.	40 x 08332 (Mini Fuse).
01470K	6 x Maxi Fuses. (Includes Busbar).	6 x 07660 (Maxi Fuse). Busbar Included. Rated to 120A.
01600K I	6 x Auto Fuses & 3 x Maxi Fuses.	12 x 07930 (Auto Fuse), 6 x 07660 (Maxi Fuse).
01690K <b>NEW</b>	4 x Mini Fuses & 6 x Jcase Fuses**.	5 x 08331, 5 x 08332 (Mini Fuse), 10 x 07992, 4 x 07993 (Jcase)
01698K <b>NEW</b>	20 x Mini Fuse / Diodes	10 x 08331, 40 x 08332 (All products with 2.8mm blades)

**Notes:** 01690 module will accept both standard Jcase (JTF) & low profile Jcase (LJC) fuses.

## RELAY MODULE KITS - INCLUDES MODULE & TERMINALS

Part Number	Module Capacity	Terminals Included in the Kit
01484K	6 x ISO Micro Relays.	18 x 08401 (4.8mm), 12 x 08503 (6.3mm).
01494K	1 x ISO Mini & 1 x ISO Maxi Relay.	7 x 08503 (6.3mm), 2 x 07741 (9.5mm).
01660K I	2 x ISO Maxi Relays.	4 x 08502 (6.3mm), 4 x 07741 (9.5mm).
01698K <b>NEW</b>	10 x ISO280 Ultra Micro relays or 6 x ISO280 Micro Relays or a mixture of both.	10 x 08331, 40 x 08332 (All products with 2.8mm blades)

**Relay Compatibility:** Micro & Mini relays with 4 or 5 terminals.  
Ultra Micro and Maxi relays with 4 terminals.

## FUSE & RELAY MODULE KITS - INCLUDES MODULE & TERMINALS

Part Number	Module Capacity	Terminals Included in the Kit
01510K I	10 x Mini Fuses & 1 x ISO Maxi Relay.	20 x 08332 (Mini Fuse), 2 x 02050 (6.3mm), 2 x 07741 (9.5mm).
01564K	8 x Mini Fuses & 4 x ISO Micro Relays.	16 x 08332 (Mini Fuse), 12 x 08401 (4.8mm), 8 x 08503 (6.3mm)
01504K	4 x Mini Fuses & 2 x ISO Mini Relays.	8 x 08332 (Mini Fuse), 10 x 08503 (6.3mm).
01698K <b>NEW</b>	Mix of Mini Fuse / Diodes / Breakers, ISO280 Relays (Ultra Micro or Micro).	10 x 08331, 40 x 08332 (All products with 2.8mm blades)

**Relay Compatibility:** Micro & Mini relays with 4 or 5 terminals.  
Ultra Micro and Maxi relays with 4 terminals.

## KITTED TERMINAL SPECIFICATIONS

Part Number	Suits Components	Terminal Size	Wire Size	Ampere Rating	Product Description
08331	Mini Fuses, Breakers, 280 Relays	2.8mm	1 to 2mm <sup>2</sup>	16A	Box F2.8mm - Standard
08332	Mini Fuses, Breakers, 280 Relays	2.8mm	2.5 to 4mm <sup>2</sup>	28A	Box F2.8mm - Standard
07930	Auto Fuses	5.2mm	2 to 3mm <sup>2</sup>	20A	Open F6.3mm - Spring clip
07660	Maxi Fuses	8mm	4 to 6mm <sup>2</sup>	36A	Box F8mm - Spring clip

## 20 x MINI FUSES

Part Number: 01460KI

Note: Includes room for 6 spare Mini fuses.

Mini Fuse not included.

Secondary locks included.

## 6 x MICRO RELAYS (5 PIN)

Part Number: 01484K

ISO Micro Relay not included.

Secondary lock included.

## 10 x MINI FUSES 1 x MAXI RELAY (4 PIN)

Part Number: 01510K

Note: Includes room for 3 spare Mini fuses

Mini Fuse & ISO Maxi Relay not inc.

Secondary locks included.

## 1 x MINI RELAY (5 PIN) 1 x MAXI RELAY (4 PIN)

Part Number: 01494K

ISO Mini & ISO Maxi Relay not inc.

Secondary lock included.

## 8 x MINI FUSES 4 x MICRO RELAYS (5 PIN)

Part Number: 01564K

Mini Fuse & ISO Micro Relay not inc.

Secondary lock included.

## 4 x MINI FUSES 2 x MINI RELAYS (5 PIN)

Part Number: 01504K

Mini Fuse & ISO Mini Relay not inc.

Secondary lock included.

## 6 x MAXI FUSES (SINGLE FEED)

Part Number: 01470K

Note: Includes room for fuse puller 00358 (optional).

Maxi Fuse not inc.

Secondary lock included.

## 2 x Maxi Relays (4 PIN)

Part Number: 01660K

ISO Maxi Relays not included.

Secondary lock included.

## 4 x MINI FUSES 6 x JCASE FUSE LINKS\* (\*Standard or Low Profile)

Part Number: 01690K

Mini Fuse, Low Profile Jcase Fuse, Jcase Fuse  
Fuses not included.

Secondary lock included.

## 6 x AUTO FUSES 3 x MAXI FUSES

Part Number: 01600KI

Maxi Fuse and Auto Fuse not included.

Secondary locks 4x 01601, 1x 01602 (optional).

# MODULAR OPEN PLAN MODULE 2.8MM TERMINAL

## 20 x MINI FUSES, DIODES, CIRCUIT BREAKERS 10 x ULTRA MICRO ISO 280 RELAYS 6 x MICRO ISO 280 RELAYS

Part Number: 01698K

Terminal Capacity: 40

Layout Matrix: 4 x 10.

Note: May use combination of any of these components.

Mini Fuse, LED Mini Fuse, Mini Diode, Mini Breaker, Ultra Micro & Micro ISO 280 Relays

Secondary lock included.

**UPDATED** **IP66**

These ssVEC and ssDVEC provide efficient, compact power distribution. The rugged design means they are capable of operating in severe environments with high vibration and moisture. Typically power is supplied via the input studs and output through connectors, but the Dual+ / Quad+ units feature mini fuses and relays that are standalone circuits (not connected to power input studs). Please refer to our QR datasheet for the internal circuit diagram of each unit & other specifications. The unit includes mini fuses, ISO 280 relays and a fuse puller. Connectors, terminals, cable seals and cavity plugs are not included, order separately. Each connector is keyed and will only fit the matching colour socket on the unit. Custom circuit design with pre-loaded specific components and labelled to suit OEM requirements also available.

ssVEC  
31S Series

ssDVEC  
32S Series

**General Specifications (for both ssVEC and ssDVEC)**

**Connector Terminals:** Delphi Metri-Pack 280 Female Sealed (Tanged), 30A max each.

See page 134 for details.

**Connectors:** 100A max each, colour coded. Quantity varies depending on the model.

**Cable Seals & Cavity Plug:** Delphi Metri-Pack 280 series.

**Input Studs M8:** 100A Max each. Unit Rating Max: 200A (ssVEC), 400A (ssDVEC).

**Operating Temperature:** -40 °C to +105 °C.

**Notes:** The unit must be installed and oriented in accordance with factory guidelines (available on request).

**Includes Components:** Mini fuses, ISO 280 relays & fuse puller.

**Does Not Include:** Connectors, terminals, terminal seals and cavity plugs.

Part Number	PDU Model	Input M8 Bus Bar	Mini Fuses	ISO 280 12V Micro Relay	ISO 280 Ultra Micro Relay	Fuse Puller	Output Connectors Quantity & Colours

**IP66** **NEW**

The multiplexed Vehicle Electrical Center (mVEC) is a power distribution node on a J1939 network, controlling relays based on information from the central vehicle controller. The mVEC will also return power distribution status information like relay state, failed relay, missing component or blown fuse.

**High Power:** 200A Rated. Individual outputs rated up to 30A (max of 32 outputs). 12V and 24V versions.

**Flexible:** The mVEC is offered in various standard and customized versions. Custom versions are configured to OEM wiring requirements. The mVEC accepts fuses, relays, circuit breakers, resistors, diodes, etc. - based on industry standard 2.8mm footprint.

**Cost Effective:** An alternative to high current, solid-state power distribution modules and features serviceable components. The mVEC is designed as a slave module, it is controlled by master modules. Standard units below come pre-loaded with relays, fuses and a fuse puller.

**Custom Ordering Options:** Cover marking: laser etching inside, outside or both. Compression limiters on mounting feet. Stuffed (with/without) components ie. fuses, relays, diodes, breakers, fuse puller. Customised circuit layouts, standard and custom CAN messages.

## Mini Flexible Electrical Center (MiniFlec)

The MiniFlec is a compact, front access, internally bussed, connectorized, sealed IP67/69K rated power distribution module. It is suitable for mounting in rugged commercial vehicle applications, has a dense concentration of high power circuits and accepts plug-in devices like automotive fuses, diodes and relays to protect and control complex electrical systems. An internally mounted Printed Circuit Board (PCB) feeds power from a single M8 input stud to 9 x fuse protected relay controlled power output circuits and 6 x fuse only power output circuits. Relay switching and power output wires are connected to the module using Tyco HDSCS connectors located at the base of the unit. All plug-in components i.e. fuses, relays and Tyco connectors are not included with the module and must be ordered separately. Contact sales for further information on Littelfuse custom designed units.

### Features

- Module includes cover. A fuse puller is also fitted in the cover.
- 6 locations for spare fuses (4 x Mini fuses).
- Cover is tethered to the module to prevent misplacement.
- Yellow Assure Latch system for secure locking of cover to the module.
- Module is rated to 150A max load.
- All relays share a common ground circuit for relay coil.
- Vent plug located at the base of the unit.

4 Mounting points

Part Number:	Description
LFMX0007Z-01	Standard Unpopulated PDM & Cover for; Up to 12 x Mini Fuses (2A-30A) Up to 2 x MCase+ Slotted Fuses (15A-60A) Up to 1 x ISO Mini Relay 5 pin Up to 3 x ISO280 Micro Relays 4 Pin Up to 3 x ISO280 Ultra Micro Relays

**Voltage:** 9 to 16VDC (with 12V relays fitted)  
18 to 32VDC (with 24V relays fitted)

**Rating:** Max Load 150A.

**Power Input Stud:** 1 x M8 stud.

**Fuse Ratings:** Max fuse ratings shown in circuit diagram.

**Connectors (x4):** Tyco HDSCS series with MCP terminals.

**Housing:** 94V-0 glass reinforced nylon.

**Cover:** Fuse puller also included. **Tether:** Included.

Features slots for 2 x spare Mini fuses & 2 x spare MCASE+ fuses.

**Base:** Includes vent for pressure equalization.

**Ingress Protection Rating:** IEC 529, IP67, IP69K

**Cover Gasket:** Internal, silicone.

**Mounting:** Panel Mount (Rear feed connectors)..

**Custom Options:** Please contact sales.

**Temperature Rating:** -40 °C to +85 °C.

**Notes:** Connectors, fuses & relays are not included.

## Flexible Electrical Center (FLEC™)

The FLEC™ is a configurable power distribution module. It accommodates circuit protection components in a sealed IP67 rated housing with a compact footprint & high component density. Littelfuse offers both standard versions (loaded or unloaded) as well as custom designs. Contact sales for further information on custom made products. The module is also equipped with terminals for plug-in components such as fuses and relays. Power is supplied to the module using three M8 power input studs (100A each). Power is output from the module using standard Delphi GT series sealed connectors that provide up to 76 output circuits for powered accessories.

QR Code: 9031

Twist-on cover with internal silicone gasket.  
Internal storage for 4 spare fuses & fuse puller.  
Tether included. Optional custom lid label.

Stud caps to protect from shorts.  
M8 studs for power input & ground

Part Number	Description
FLEC3000Z-0U	Unpopulated PDM 12VDC / 32VDC Up to 28 x Mini Fuses / Mini Breakers Up to 18 x Micro ISO 280 Relays 5 Pin
FLEC3000Z-0	Populated PDM 12VDC includes; 28 x Mini Fuses. (6ps x 15A & 22pcs x 30A) 18 x Micro ISO 280 12VDC Relays 5 Pin.
CFLEC001Z-01	Populated Can-Bus PDM 12VDC includes; 29 x Mini Fuses. (8ps x 20A & 21 pcs x 30A) 12 x Ultra Micro ISO 280 12VDC Relays 4 Pin. 3 x Micro ISO 280 12VDC Relays 5 Pin.

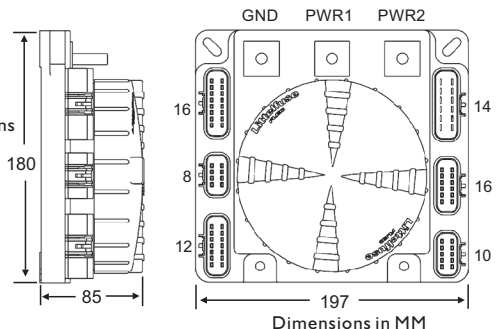

**Voltage:** See above for corresponding unit.  
**Rating:** Max Load 300A. Max Fuse Rating 30A  
**Power Input Studs:** 3 x 100A rated M8 studs. Plated copper and stainless steel. Red or black covers included.  
**Power Output Terminals:** 38 x 1.5mm blades (15A) & 38 x 2.8mm blades (25A) suit Delphi GT 150 & 280 series sealed plug-in connectors.  
**Internal PCB:** FR4 board with multi-layer high current 6oz copper. Conformal coating available.  
**Materials:** UL94V0 thermoplastic.  
**Cover:** Twist-on design with easy single-handed removal / installation. No latches to break and low over-head clearance requirements. Inside cover features slots for 4 x spare Mini fuses and includes a fuse puller.  
**Base:** Includes vent for pressure equalization.  
**Ingress Protection Rating:** IP67  
**Cover Gasket:** Internal, high temperature silicone.  
**Mounting:** Surface Mount.  
**Custom Layout Component Options:** Mini fuses, JTF fuses, MJC fuses, Relays & PCB mount components. Can be designed to accept other components (development/tooling may be required). Internal PCB allows for custom circuit configurations, including designs requiring electronics such as those used in CAN J1939 and LIN systems  
**Temperature Rating:** -40 °C to +85 °C.  
**Options:** Additional MegaFlex holders can be interlocked to dovetails on the base for high current protection. A Mega fuse can be installed across the M8 input studs to pre-fuse multiple circuits in the FLEC.  
Custom component label or inside cover label.  
**Test Specifications:** SAE, USCAR & ISO.

Standard 1.5 & 2.8mm terminals for use with standard Delphi GT series sealed connectors.

Base plate with gasket prevents water intrusion from rear.

Includes vent for pressure equalization.

# POWER DISTRIBUTION UNIT (EPC)

**NEW**  
**IP67**  
**IP69K**

This sealed power distribution module is an internally bussed and connectorized unit, suitable for mounting in rugged commercial vehicle applications. This unit has dense concentration of high power circuits and accepts plug devices like automotive fuses, diodes and relays to protect and control complex electrical systems. An internal Printed Circuit Board (PCB) provides bussed connections to a large number of devices. You decide which fuses and which wires.

### Features

- 2 Individual power input circuits power fuses and relays using internal buses.
- Stand-alone relays & fuses for separate power sources.
- Cover is tethered to the module to prevent misplacement.
- Custom configurations available.
- Module is rated to 200A max load.
- Vent plug located at the base of the unit.
- Sealed rugged enclosure (IP67/69K) protects internal circuitry from harsh environments such as high shock, vibration, as well as moisture and contaminants.

Part Number:	Description
LFLX0006Z-01	Standard Unpopulated PDM & Cover for; Up to 27 x Mini Fuses Up to 9 x ISO280 Micro Relays 4 or 5 Pin* Note:*Pin 87a is not used on some relays.

- Voltage:** 12VDC (with 12V relays fitted)  
24VDC (with 24V relays fitted)
- Rating:** Max Load 200A.
- Power Input:** Multiple sources via connector terminals.
- Wire Sizes:** 0.5mm<sup>2</sup> to 2.5mm<sup>2</sup>
- Fuse Ratings:** Max fuse ratings shown in circuit diagram.
- Connectors (x4):** Tyco HDSCS with AMP MCP terminals.
- Base:** Includes vent for pressure equalization.
- Ingress Protection Rating:** IP67/69K
- Body Gasket:** Silicone.
- Body & Cover Material:** Pet glass filled (UL94-V0)
- Mounting:** Surface Mount.
- Custom Options:** Please contact sales.
- Temperature Rating:** -40 °C to +85 °C.
- Bolt Mounting Torque:** 6 - 8 Nm
- Notes:** Connectors, fuses & relays are not included.

Scan this QR Code for more information

QR Code: 9033

### Internal Circuit Summary

- Power input 1 supplies:**
- 2 x SPST relays supply fuse protected power\*.
  - 1 x Fuse protected output (relay by-pass).
  - 15 Mini fuses.

- Power input 2 supplies:**
- 3 x SPST relays supply fuse protected power\*.
  - 2 x Fuse protected outputs (relay by-pass).
  - 5 Mini fuses.

- Stand-alone circuits (independent power):**
- 1 x SPST ISO280 Micro relay\*.
  - 2 x SPDT ISO280 Micro relays\*.
  - 1 x SPDT ISO280 Micro relay.
  - 2 Mini fuses.

\*Relay coil is connected to the common ground stud.

# TERMINAL BLOCKS DIN RAIL MOUNT

MORSETTITALIA

Part Number	Product Description	Conductor	Pack Size	Colour
43408	Terminal block 24A, 1000V (Inputs / Out)	Flexible (0.5-2.5mm <sup>2</sup> ), Rigid (0.5-4mm <sup>2</sup> )	1/100	Grey
43409	Terminal block 32A, 1000V (Inputs / Out)	Flexible (0.5-4mm <sup>2</sup> ), Rigid (0.5-6mm <sup>2</sup> )	1/100	Grey
43409BL	Terminal block 32A, 1000V (DC Control)	Flexible (0.5-4mm <sup>2</sup> ), Rigid (0.5-6mm <sup>2</sup> )	1/100	Blue
43409E	Terminal block 32A, 1000V (Earth)	Flexible (0.5-4mm <sup>2</sup> ), Rigid (0.5-6mm <sup>2</sup> )	1/100	Ylw / Gr
43401	Terminal block 41A, 1000V (Inputs / Out)	Flexible (0.5-6mm <sup>2</sup> ), Rigid (0.5-10mm <sup>2</sup> )	1/50	Grey
43525/24	Jumper (pitch 5.1mm) 25A, 600V	Flexible (2.5mm <sup>2</sup> )	1/5	Orange
43520/24	Jumper (pitch 6.1mm) 25A, 600V	Flexible (4mm <sup>2</sup> )	1/5	Yellow
43621/24	Jumper (pitch 7.1mm) 50A, 600V	Flexible (6mm <sup>2</sup> )	1/5	Green
43010	End plate (1.5mm wide), Suit Euro 2.5 - Euro 4		1/100	Grey
43011	End plate (1.5mm wide), Suit Euro 6 - Euro 10		1/100	Grey
43444	End bracket (stop modules sliding on DIN rail)		1/100	Grey
43300	Marking tags. Printed numbers 1-10 (2 sets)		1/25	White
43310	Marking tags. Printed numbers 1-100 (1 set)		1/5	White
43311	Marking tags. Printed numbers 101-200 (1 set)		1/5	White
43192	Marking tags. Blank stem. 1 stem = 20 Marking Tags.		1/25	White

**Connection:** Slot screw terminals. **Mounting:** DIN Rail 35.  
**End Plates:** The blocks feature 1 x open and 1 x closed wall so only one End Plate is required to finish either a single module or multiple adjoining modules.  
**Jumpers:** Jumpers can be used to share power from one input cable across multiple modules and are supplied in strips of 24. Ratchet jumper cutting tools also available contact sales.  
**End Stop:** These modules feature a screw which tightens onto the DIN rail to stop modules sliding along the rail.  
**Accessories:** Euro Omega DIN 35 Rails. Angled rail brackets. Protection covers. Test plugs. Complete range of marking tags.  
**Colour Options:** Blue, Yellow/Green, Yellow, Orange, Red, Green, Black, Brown and White.  
**Extended Range:** Terminal blocks to suit 10mm<sup>2</sup>, 25mm<sup>2</sup>, 50mm<sup>2</sup>, 70mm<sup>2</sup>, 95mm<sup>2</sup> cable sizes are also available.  
**Notes:** Contact sales for further information.

# BLADE FUSE TERMINAL BLOCKS DIN RAIL MOUNT

- Push in various circuit protection devices including auto blade fuses or bladed circuit breakers.
- Blocks can facilitate plug in modules. Module options include diodes, MOV's and cartridge fuses.
- Disconnector options include bladed plug or knife type for on / off switching of a circuit.
- Single or multiple pole terminal blocks with optional insulated and dividable jumper.
- Termination options include screw terminals, screw-less spring terminals or hybrid terminals.
- Marking accessories are available for both the blocks and cables.
- 12V and 24V LED indication options.

**Module; Diode, MOV, Fuse Cartridge**

**Disconnector**

**Auto Blade Fuses**

**Auto Blade Breakers**

**Marking Tags Nbrs 1 - 1000 or Blank Tag**

**Optional LED 12V or 24V**

Part Number	Description	Rating	Pack Size	Dimensions in MM		
				L	H	W
4358100	Auto Blade Fuse Module	25A, 300V	1/50	58.9	29.5	6

43311	Marking tags. Printed No. 101-200 (1 set)	-	1/5	11.9	-	4.8
43192	Marking tags. Blank stem. 1 stem = 20 Marking Tags.	-	1/25	11.9	-	4.8

**Mounting:** DIN Rail 35 **Connection:** Screw standard. Optional cage clamp or hybrid connection.  
**Cable:** 0.5mm<sup>2</sup> to 4mm<sup>2</sup> (#24-10AWG)

**Optional Components:** Mini fuse module, non-fused terminal block modules and Euro Omega DIN 35 Rails.

**Jumpers:** Jumpers can be used to share power from one input cable across multiple fuse modules and are supplied in strips of 12. They can be cut using the ratchet jumper cutting tool #43517. ^ One x 3.0mm or two x 1.5mm separator / end plates are required between each fuse module when using jumpers.

**Fuse Modules:** Feature 1 x open and 1 x closed wall so only 1 x end plate is required to finish either a single module or multiple modules. Fuse modules accept both auto blade fuses and auto blade circuit breakers. Cartridge fuses can be fitted by purchasing the appropriate fuse holder module which plugs directly into the fuse module.

**Fuse Holders:** \*One x 1.5mm separator / end plate is required between each adjoining fuse module.

**End Stop:** These modules feature a screw which tightens onto the DIN rail to stop modules sliding along the rail.

## Blade Fuse / Breaker Modules

Wire fixing: 2 x screw connectors.  
 Optional 12V / 24V LED indicator.

## Disconnector

- (1) Plug type. Push in / pull out.
- (2) Knife type. Slidable.

## Separator / End Plates

Separates terminal blocks.  
 Completes a row.  
 1.5mm or 3.0mm width options.

## Plug In Component Modules

Cartridge Fuse Module. M205 or 3AG.  
 Diode Modules. Contact sales.  
 MOV / Surge Supply Module VI 30LA2.

## Ratchet Tool - Cuts Plug In Jumpers

P/N: 43517 cuts jumper 9.1mm pitch.  
 P/N: 43516 cuts jumper 6.1mm pitch.

## End Stop

Fitted to each end of a row of terminal blocks. Stops modules sliding on DIN rail.

# POWER DISTRIBUTION BLOCKS - FINGER SAFE 1000V

**IP20 NEW**

## Features

- Enclosed, safer installation; IP-20 finger-safe under specific conditions.
- High Short-Circuit Current Ratings up to 200,000A: PDBs do not have to be the weak link in achieving high SCCR for an industrial control panel.
- Small footprint saves panel space.
- DIN rail or panel mount; \*PDBFS330 & \*PDBFS504 panel mount only.
- Sliding DIN rail latch for easy mounting.
- DIN rail end anchors required to prevent damage to block when torquing.
- Elongated hole for panel mounting; easier mounting with greater flexibility.
- Captive termination screws; screws do not get misplaced.
- Wire ready: captive termination screws shipped backed out to save time on conductor installations.
- Single pole or gang mountable for multiple pole applications with interlocking dovetail accessory (optional). Part 2A1279: Interlocking dovetail pin accessory, one pin interlocks two units, two pins to interlock three units.

**Multi Pole Dovetail Slide Lock Feature**

### Features

- Allows fully insulated independent terminal blocks for applications where circuits must be isolated.
- Closed back design completely insulates power from the mounting surface.
- Each screw pair is one isolated circuit. Barriers separate all circuits.
- Terminal block jumpers allow creation of common circuits.

# 3 WAY PASS THROUGH DISTRIBUTION BLOCK

**NEW**

Designed to meet multiple power / ground requirements, the GB3000 provides 3 pass-thru M6 studs for easy cable attachment in both the cabin and engine compartment of your vehicle. These blocks provide robust connections, eliminates the need to stack cables and reduces associated warranty claims based on affiliated problems. The GB3000 also provides power distribution suitable for many feed thru applications in marine, construction, agriculture, bus, military, RV and specialty vehicles.

The GB3000 series block includes 2 bus bars (removable) to create a common single circuit across the 3 feed thru studs. The GB3001 series block does not include the 2 bus bars, provides power or ground feed thru for 3 individual circuits, one for each stud.

Part Number	Block Description	Current Rating	Body Colour
GB3000-1R	Single Circuit Feed Thru	200A Max Total	Red
GB3000-1B	Single Circuit Feed Thru	200A Max Total	Black
GB3001-1R	3 Circuit Feed Thru	60A Max Per Stud	Red
GB3001-1B	3 Circuit Feed Thru	60A Max Per Stud	Black

**GB3000-1R**

**GB3000-1B**

**Amperage:** See above.

**Temperature Rating:** -40°C to 85°C

**Hardware:** M6 nuts included.

**Torque:** M6 stud & mounting 5.6Nm max.

**Current Carrying Studs:** Zinc-plated brass.

**Mounting Studs:** Stainless steel.

**Housing:** Black UL rated 94V0 thermoplastic.

**Cover Colours:** Black or red.

**Cover Material:** Santoprene cover rated 94V0 for protection from accidental shorts.

**Gasket:** Included for ingress protection. Black santoprene gasket rated 94V0.

**Approvals:** RoHS

**Pictured Without Cover**

## HEAVY DUTY BATTERY FEEDER STUDS 3/8"

These battery feed studs are designed to bring power through fire walls and bulk heads.

### Features

- Easy to install for quick distribution of power.
- Impact resistant threaded mount bushing.
- Self locking mounting nut.
- Suits panel up to 9mm thick.
- Colour coordinated to serve as easy-to-identify power points.

Part Number	Description
46211-R	3/8"-16 Feeder Stud <b>Red Body</b>
46211-01	3/8"-16 Feeder Stud <b>Black Body</b>

Hex Nut

**Voltage:** 6VDC to 36VDC

### Current Ratings:

- Up to 250A (continuous) at 50mm<sup>2</sup> cable.

- Up to 600A for up to 20 seconds ON (10 minutes OFF).

**Temperature Rise:** (up to 400A at 24V) from 55.6°C to 67°C using 0 AWG cable.

**Stud:** Brass.

**Terminal Size:** 3/8"-16, 5/8" (15.9mm) long.

**Hardware:** 2 x Lock washer and 2 x brass hex nut.

**Plastic Insulator:** PBT Valox 420 SEO.

**Flammability Rating:** V0-V2 UL94.

**Bushing Size:** 32.1mm diameter, 15.9mm length.

**Panel Cutout**

Ø33.32mm

**Body Diameter:** 36mm

**Overall Dimensions:**

40 D x 40 W x 52 H (mm)

## HEAVY DUTY BATTERY JUMPER STUDS 3/8"

A battery jumper studs allow direct connection to the battery at more easily accessible locations inside or outside the vehicle.

### Features

- Easy to install for quick distribution of power.
- Impact resistant threaded mount bushing.
- Self locking mounting nut.
- Suits panel up to 9mm thick.
- Colour coordinated to serve as easy-to-identify power points.

Part Number	Description
46210-02	3/8"-16 Jumper Post, <b>Red Band &amp; 1 x Red Cap</b>

POWER DIST.

**Voltage:** 6VDC to 48VDC

**Current Rating:** 285A (continuous) at 120mm<sup>2</sup> cable, with temperature rise 25°C above ambient.

**Stud:** Brass.

**Stud Size:** 3/8"-16 dia., (14.5mm) long.

**Terminal Size:** 13/16" (20.6mm) dia., 1-1/8" (29.9mm) long.

**Contact Post:** 20.6mm diameter, 28.8mm length.  
Grooved double nut accepts standard jumper cables.

**Body:** Nylon 66

**Hardware:** 1 x Lock washer and 1 x brass hex nut.  
1 x Brass double nut.

## LIGHT DUTY BATTERY FEEDER STUDS 1/4"

Suite smaller and lighter military grade pass thru for lower power application through a firewall or bulkhead.

### Features

- High rating in a small package.
- High torque rating due to patented material, combination.

Part Number	Description
PTR-14D-05	1/4"-28 Stud <b>Red Body Only</b>
PTB-14D-05	1/4"-28 Stud Black Body only
OR-022	O-Ring Seal Black

**Voltage:** TBA

**Overall Dimensions:**  
51 D x 32 W x 36 H (mm)

## HEAVY DUTY BATTERY FEEDER STUDS 3/8"

Military grade, power feed for applications through a firewall or bulkhead.

### Features

- Higher electrical rating and lower resistance due to a larger cross sectional area and the utilization of a higher conductive material.
- Increased installation torque values resulting from our unique manufacturing.

Part Number	Description
PTR-38A-02	3/8"-16 Stud, <b>Red Body &amp; 2 x Red Caps</b>

Heavy-duty ground or power connection points for DC circuits. Compact profile with insulated base. Ideal for creating a centralized power distribution or grounding point.

## Single Stud JBS

Part Number	Body Colour	Thread Size	Height A (mm)	Stud Amp Rating
JBSM6B	Black	M6	30	100A
JBSM6R	Red	M6	30	100A
JBSM8B	Black	M8	31	200A
JBSM8R	Red	M8	31	200A
JBSM10B	Black	M10	34	300A
JBSM10R	Red	M10	34	300A

**Voltage:** 48VDC max.  
**Body:** Nylon, glass fibre reinforced.  
**Studs & Hardware:** Stainless steel (included).

## Dual Stud JBD

Part Number	Body Colour	Thread Size	Height A (mm)	Stud Amp Rating
JBDM6B	Black	2 x M6	30	100A
JBDM6R	Red	2 x M6	30	100A
JBDM8B	Black	2 x M8	31	200A
JBDM8R	Red	2 x M8	31	200A

**Voltage:** 48VDC max.  
**Body:** Nylon, glass fibre reinforced.  
**Studs & Hardware:** Stainless steel (included).

## Dual Stud With 80A Busbar Link JBDB

Part Number	Body Colour	Thread Size	Height A (mm)	Stud Amp Rating
JBDBM6B	Black	2 x M6	30	100A
JBDBM6R	Red	2 x M6	30	100A
JBDBM8B	Black	2 x M8	31	200A
JBDBM8R	Red	2 x M8	31	200A

**Voltage:** 48VDC max.  
**Link Rating:** 80A max.  
**Link Material:** Nickel plated brass.  
**Body:** Nylon, glass fibre reinforced.  
**Studs & Hardware:** Stainless steel (included).

## Dual Stud With Stud Barrier JBDFM

Part Number	Body Colour	Thread Size	Height A (mm)	Stud Amp Rating
JBDFM8B	Black	2 x M8	32.5	100A
JBDFM10B	Black	2 x M10	35.5	200A
JBDFM810B	Black	1 x M8 + 1 x M10	35.5	300A

**Voltage:** 48VDC max.  
**Body:** Nylon, glass fibre reinforced.  
**Studs & Hardware:** Stainless steel (included).  
**Notes:** Provides a termination point for extending the length of harnesses or other conductors. Use dual entry cable insulators to protect from accidental short circuits.

# COMMON BUSBARS WITH COVER & LABELS

- Heavy-duty busbars for ground or power connection points for DC circuits.
- Ideal for creating a centralized power distribution or grounding point.
- Compact profile with insulated base.
- All common busbars include sticker set and mounting hardware.

Mounting Hardware Sticker Set

## Single Row Busbar With M6 Studs

Part Number	Busbar Studs	Dimensions in MM	
		A	B
BB4M6	4 x M6	146	101
BB6M6	6 x M6	206	161

**Voltage:** 48VDC max. **Rating:** 100A

## COMMON BUSBAR MAXI

**NEW**

### Features:

- Heavy duty busbar terminal block.
- Insert-molded stainless steel studs.
- One-piece serrated flange nuts ensure correct and secure connection.

**Part Number**    **Busbar Studs**  
 880118            4 x 5/16"-18

**Rating:** 250A

**Voltage:** 300VAC / 48VDC

**Body:** Black

**Bus Material:** Tin plated copper

**Studs:** 5/16"-18 (M8)

**Mounting Holes:** 5mm  
**Pack Size:** 1, 10, 50, 100

## COMMON BUSBAR POWER

**NEW**

### Features:

- Compact heavy duty busbar terminal block.
- Insert-molded stainless steel studs.
- One-piece serrated flange nuts ensure correct and secure connection.

**Part Number**    **Busbar Studs**  
 880097            2 x 3/8"-16

**Rating:** 600A

**Voltage:** 48V

**Body:** Glass reinforced polycarbonate

**Studs:** 3/8"-16 (M10)

**Mounting Holes:** # 10 or M5 screws

**Hardware:** Stainless steel nuts & washers included.

**Bus Link:** Tin plated copper.

**Pack Size:** 1, 10, 50, 100

## BATTERY TERMINALS DIE CAST

**NEW**

These terminals are designed for connecting a cable to a standard DIN post type battery. Available in both positive and negative versions. Optional cover fits the positive terminals.

Part Number	Polarity & Symbol	Description	"A" Dimension
1506270	Positive (+)	Saddle Terminal	25 to 50mm <sup>2</sup>
1506280	Negative (-)	Saddle Terminal	25 to 50mm <sup>2</sup>

Negative Terminal (Black Band)

**Terminal:** Brass tin plated  
**Terminal Hardware:** Steel zinc plated (M6)  
**Terminal Temperature Rating:** -40°C to 120°C  
**Cover Material:** PP  
**Pack Size:** 1, 10

Positive Terminal Cover 4410480

Positive Terminal (Red Band)

## BATTERY TERMINAL DISTRIBUTION QUICK LOCK - 3 WAY

**NEW**

These double ring terminals are designed for quick hand release battery terminal disconnection. Available in two versions, stud only and stud + crimp combination.

Part Number	Polarity & Symbol	3 Connection Options
1507956	Negative (-)	M6 stud, M6 stud, Cable 25 to 40mm <sup>2</sup>

**Terminal:** Brass tin plated  
**Terminal Hardware:** Steel zinc plated (M6)  
**Pack Size:** 1, 10

2x Stud & 1x Crimp

# BATTERY TERMINAL DISTRIBUTION UNIT - 3 WAY

UPDATED

## Features

- Battery Distribution Units (BDU) for Positive or Negative battery terminal.
- Simple connection to battery top post terminal.
- Double ring battery terminal connection. Positive 19mm / Negative 17mm.
- Two M6 studs and one M8 stud on the unit. Kit version includes terminals.
- Optional clip-on red colour protection cover, labelled with (+) symbol.

## Part Number Kit Contents

1507701K 3 Way Positive includes 3 x terminals & red cover.  
1507701, 4510503, 2 x 1606770, 1606785

1507704K 3 Way Negative includes 3 x terminals (No cover).  
1507704, 2 x 1606770, 1606785

## Part Number Individual component ordering

1507701 3 Way Positive battery distribution unit. (+)

# ULTRA MICRO 280 RELAYS - 303 SERIES

Part Number	Voltage	Contact Action	Ampere Rating		Terminals	Protection
			N/O	N/C		
3031AHCR112	12V	SPST	20A	-	4 x 2.8mm	½W 1.1KΩ resistor
3031AHCR124	24V	SPST	10A	-	4 x 2.8mm	½W 4.3KΩ resistor

**Contact Rating (Motor /Lamp) N/O:** 16A (14VDC), In-rush 80A

**Coil Current:** 80mA (12V), 40mA (24V)

**Coil Resistance:** 150Ω (12V), 600Ω (24V)

**Contact Voltage Drop:** Typ. 50mV at 10A

**Contact Material:** Silver Tin Oxide alloy (AgSnO)

**Operate / Release Time:** 10ms max. / 10ms max.

**Enclosure:** flux tight seal.

**Temperature:** -40 to +125°C (no freezing)

**Mechanical Life Expectancy:** 10 million operations.

**Pack Size:** 1pc, 10pcs, 100pcs, 500pcs.

**Options:** Sealed washable enclosure. Diode protection.

**Suits Power Distribution Modules:** Pages 120 - 128, 138-144.

**Approval:** ELV-2000/53/EC RoHS

**Terminal Size**  
□ 2.8mm

## 898HICHCRI24 Series

# STANDARD FLASHER RELAYS

**Bussmann**

These flashers work with standard bulbs and rely on electronic circuitry (not heat) to operate ensuring excellent performance in extreme climates. Flashes at twice the normal speed to indicate lamp outage, and features an audible click when engaged.

Part Number	Flasher Type	Terminals	Electrical Rating	Number of Bulbs
NO.761	H-D Electronic	3 x 2.8mm	12.6A at 12VDC	2 to 4
NO.762	H-D Electronic	4 x 2.8mm	12.6A at 12VDC	3 to 6

**Terminal Size**  
 2.8mm

# LED FLASHER RELAYS

**Bussmann**

The LED flashers should always be used with LED turn signals because they require less current. Using traditional thermal / mechanical flashers for LEDs will cause erratic operation by flashing too fast or too slow.

Part Number	Terminals	Electrical Rating	Number of Bulbs
NO-727-LED	5 x 6.3mm	12.6A at 12.8VDC	2 to 4
NO-758-LED	3 x 6.3mm	12.6A at 12.8VDC	2 to 6
NO-759-LED	3 x 6.3mm	12.6A at 12.8VDC	2 to 6
NO-760-LED	3 x 6.3mm	12.6A at 12.8VDC	2 to 4
NO-762-LED	4 x 2.8mm	12.6A at 12.8VDC	2 to 6

# POWER RELAYS

**IP67** **NEW**

These Power Relays can switch high power loads on/off to electrical accessories using a separate remote switch and well suited for use in commercial vehicles and heavy trucks.

### 12V Power Relay (P/N: 05903300)

Designed for use in 12V circuits, it can supply intermittent current loads up to 200A and continuous current loads up to 120A max.

### 24V Power Relay (P/N: 05903500)

Designed for use in 24V circuits, it can supply intermittent and continuous current loads up to 100A max.

### Terminal Sizes

- 6.3mm (1/4")
- M6 stud

Part Number	Volt	Contact Action	Amperage	Terminals
05903300	12V	SPST	200A*	2x 6.3mm Q.C, 2x M6
05903500	24V	SPST	100A	2x 6.3mm Q.C, 2x M6

**Contact Material:** Silver Plated Copper

**Terminals:** M6 Tin-plated Brass

**Hardware:** Brass contact nuts

**Bracket:** Plastic

**Temperature:** -40 to +100°C

**Pack Size:** 1pc, 10pcs.

**Notes:** \*Continuous current load 120A max.

Dimensions in MM

## SD BI-STABLE RELAY WITH AUXILIARY CONTACTS

**NEW**  
**IP69K**  
**IP66**

The SD series relay provides remote power switching for applications that require high continuous current passage, large engine starting needs and high ambient temperatures. Relay switching is controlled via a plug-in connector (with small cables) to switch 1 or 2 high amp circuits. The 2 pole version suits dual battery configurations. The SD series relay helps reduce your costs and saves weight by positioning the relay close to the battery and high current loads to reduce heavy copper cable routing. Applications include; Heavy Duty Trucks and Lifting Equipment, Construction & Agricultural Equipment.

### Features:

- Compact footprint saves space in your installation.
- Supports US DOT 11579 and EU ADR requirements for hazmat vehicle compliance.
- Plug-in connector controls relay switching and provides additional circuits and features.
- Dedicated 24-hour output to power your tachograph or other keep-alive functions.
- Local and remote indication of the state of the relay.
- Bi-stable internal mechanism draw no current in the on or off state saving your batteries voltage supply.

Part Number	Switch Circuit	No. Poles	Control Voltage	Contact Voltage	Continuous Rating	Inrush Current
880103	SPST	Single	9V - 16V	9V - 32V	600A	2000A x 30sec., 3000A x 1sec.
880107	DPST	Double	12V - 24V	9V - 32V	600A (2 x 300A)	1000A x 30sec., 2000A x 1sec.

QR Code: 12001

## HD BI-STABLE RELAY WITH AUXILIARY CONTACTS

**NEW**  
**IP69K**  
**IP67**

The HD Series Bi-Stable Relay is designed to supply high continuous current to electrical accessories on a vehicle eg. large inverter loads. It is designed for use in harsh weather, high shock and vibration environments as well as high ambient temperatures. The HD Relay is controlled using a remote switch that is connected to the relay via small gauge cable. The HD Relay delivers high performance in a compact size, perfect for heavy-duty vehicles, lifting, construction & agriculture equipment, military vehicles etc.

### Features:

- Remotely-operated device eliminates long runs of heavy cable, minimizes cabling complexity, cost and weight.
- Bi-stable (latched) operation draws no current in On or Off. Eliminates a continuous demand on the batteries.
- LED output wire enables remote indication of relay status – Open or Closed.
- Silver alloy contact assure the lowest voltage drop / resistance and extends cycling life of the device.
- Stainless steel hardware and tin-plated copper contacts maximize resistance in harsh environments.
- Eliminates routing of heavy gauge cables to user-accessible mechanical disconnect switches, lowering system costs.
- Supports high-amp intermittent or continuous current loads.

 (as above)

**Lateral Lock To Modules**  
 (see p.137 & 141)

# MINI RELAY SEALED CONNECTOR (4 OR 5 PIN)

The Series PTSR-X Push-to-Seat sealed relay connector is specifically designed to accept standard Mini ISO skirted relays, Delphi 630 Metri-Pack terminals and 480 Metri-Pack seals. This uniquely designed sealed unit features a Push-to-Seat connection system. Terminals are crimped to cable, then pushed into base of unit. This eliminates the costly labor intensive "5 step" pull-to-seat assembly approach required by other connectors.

**IP66** **NEW**

## Features:

- Sealed, Ingress Protection Rated IP66.
- Labor saving "Push to Seat" connection system.
- Molded in rugged polyester thermoplastic material.
- Finger release latch.
- Accepts any wire size, in any cavity using Aptive 630 Metri-Pack sealed push to seat terminals together with 480 Metri-Pack seals.

Connector shown assembled with skirted mini ISO relay.

Part Number	Kit Contents:
PTSR-KIT	1 x Connector with Seal Assembly 1 x Blue TPA Term. Pos. Assurance 2 x Terminals (20-18AWG) 2 x Yellow Seals (18AWG) 3 x Terminals (12-10AWG) 3 x Orange Seals (10AWG) 1 x Cavity Plug Grey

# CIRCUIT BREAKER / SWITCH PANELS

Prolec offer a range of three standard black powder coated panels that can accommodate either 4 or 6 of the Series 24 switches or switchable circuit breakers. These panels can be mounted either vertically or horizontally.

### Features

- Australian designed and manufactured..
- Panels can be mounted either vertically or horizontally.
- Quick assembly. Snap mount components include switch or circuit breaker.
- Mount via 4 x 4mm holes. Black pan head screws included.
- Strong panel is 2mm aluminum black powder coated.
- 4 Way mounting orientation.

# CIRCUIT BREAKER PUSH TO RESET DISTRIBUTION PANEL

Prolec now offers a new Australian designed and made range of standard blank black powder coated panels that suit the Series 14, 15 and 16 panel mount manual reset circuit breakers. These panels can be mounted either vertically or horizontally. Adhesive stickers can be added to the panel or it can be custom screen printed or a full colour branded label can be fitted over the entire panel. Circuit breaker thread size 3/8"-27. Components are screw mount. Electrical connection options are quick connect or screw terminal. Includes mounting hardware black counter sunk screws. Circuit breakers are not included.

RELAY + SWITCH

Prolec's Australian made 4, 6 or 8 way panels, enable you to build your own customised circuit breaker / switch panel. Simply order the panel that suits your requirements, then order the switches and circuit breakers (sold separately). Switches are available with different electrical configurations and the switch actuators come in a wide variety of symbols & labelling. Our manual reset circuit breakers are available in ratings from 3A to 20A. Once the switches and breakers are fitted into the panel, connect your cables to them using standard 1/4" Q/C terminals.

Battery Switch Terminals are primarily designed to prevent battery drain by providing a quick and safe way to completely disconnect the negative terminal of a battery. Simply unscrew the plastic knob one 1/4 turn and the battery is disconnected. To restore power, screw the knob down again.

A secondary application of this product is for use as an anti-theft device. By completely removing the knob, the vehicle cannot be started. Installing the included fuse holder (to bypass the switch) allows power flow to low current accessories ie. alarm, clock or door locks, but high current loads like a starter motor will not function until the knob is re-installed. The fuse can be removed to completely disconnect power.

**BMS-1 (Kit - Suit Top Post)**

**BMS-2 (Kit - Suit Side Post)**

Part Number	Description
BMS-1	Top Post Battery Switch Kit
BMS-2	Side Post Battery Switch Kit

- Both Kits Contain:**
- 1 x Battery switch.
  - 1 x Inline mini fuse holder.
  - 1 x 20A Mini fuse.
  - 2 x Crimp terminals.
  - 1 x Wing nut & bolt.

← Negative Top Post

← Negative Side Post

**Ampere Rating:** 100A continuous, 600A cranking.  
**Notes:** Suitable for boats. Recommended by inboard and outboard motor manufacturers using DFI / FFI / EFI electronic fuel injection systems, but use without fuse and holder.

## BATTERY DISCONNECT CIRCUIT BREAKER SERIES 53

The Series 53 Battery Disconnect Breaker Switch incorporates a traditional battery disconnect switch (non-engine) & circuit breaker into a single device. This unique single rotary switch allows OEM cost savings by eliminating the added components, material and labour of a separate battery switch and circuit breaker / fuse. For end users and maintenance personnel, the Series 53 provides a quick way to disconnect traditional downstream circuit(s) to prevent unintentional battery drain or provide disconnected battery power during storage and/or maintenance.

### Features

- Current ratings 10A to 70A. Voltage 32VDC.
- Rotary switch knob, with Push to Reset breaker button.
- One-Piece terminal stud design never loosens over time.
- Designed for panel mounting (front or rear of panel).
- Ignition protected and weatherproof IEC 60529, (IP66 & IP67).
- Designed and manufactured in USA.
- Housing: Thermoplastic.
- Approvals: UL 1077, SAE J553, ABYC, CE

For complete product details on this product please see catalogue page 56.

# BATTERY DISCONNECT SWITCHES 12-24VDC

# BATTERY DISCONNECT SWITCHES 12-24VDC

**NEW**

These battery disconnect switches all feature a removable key handle and compact plastic body. The 08098700 is the standard manual battery disconnect switch rated to 100A with M8 terminals. The 08098780 is rated to 150A max. continuous current with M10 stud terminals designed for heavier current loads which makes it one of the most popular products for 12V or 24V applications. The 08099080 is also rated to 150A with M10 terminals, but features both a seal on the handle and a tethered cover to seal the hole when the handle is removed. It's weatherproof to IP43.

# MASTER DISCONNECT SWITCH 6-32VDC

The 75920 Master Battery Disconnect switch is designed to protect service personnel and your vehicle systems. The switch protects vehicles from both battery drain and theft as well as allowing service personnel to lock-out tag-out. It also serves as an effective emergency power cutoff.

## Features

- High amperage capacity: 400A at 12V DC.
- Can be used in high side or low side applications.
- Waterproof and dustproof to IP68.
- Composite engineered polymer housing will not rust or corrode.
- Tested per SAE J1455 for salt, calcium chloride and magnesium chloride.
- Large red knob is easy to operate with gloves.
- 90° switch travel makes it easy to identify the switch position.
- Large divider on base prevents accidental shorting of high energy cables.
- Fits standard Master Disconnect mounting pattern.

Part Number	Voltage	Circuitry	Ingress Rating	Switch Pos Symbol	Feature	Actuator Colour
75920	6V-36V	SPST	IP68	"On"- "Off"	Lockout	Red
75920-01	6V-36V	SPST	IP68	"On"- "Off"	Lockout	Yellow

**Mounting:** Panel Mount

**Continuous Current:** 12V:400A  
24V:300A  
36V:200A

**Intermittent Current:** 12V: 1000A, 90sec on, 5 min off.  
12V: 1500A, 60sec on, 5 min off.  
12V: 2000A, 30sec on, 5 min off.  
12V: 3000A, 15sec on, 5 min off.

**Operating Temperature:** -40 to 85 degC

**Terminal Studs :** Copper 3/8"-24.

**Hardware:** Stainless steel nuts (included)

**Corrosion Test:** 96 hours - salt spray test to ASTM standard.

**Vibration and Shock Test:** SAE J1455

**Ingress Protection Rating:** IP68.

**Approvals:** SAE CE RoHS

# MASTER DISCONNECT SWITCH 48VDC

**NEW**

**IGNITION PROTECTED**

**48V**

**IP67**

**IP69K**

The Littelfuse Master Disconnect Switch isolates the batteries and eliminates battery drain when vehicle is stored overnight or for longer periods. Electrically cuts off battery power for safety or when the vehicle is being serviced. Units have a depth of only 75mm (knob front to end of studs) – can be installed in locations where behind-panel space is limited.

## Features

- 300A continuous current rating.
- Ignition protected to SAE J1171 and ISO 8846 for installation in a battery box or on vehicles carrying hazardous loads.
- Plastic construction will not corrode.
- Stands up to road splash and salt spray.
- Ingress protected to IP67/ IP69K.
- Switch can be mounted anywhere on the vehicle.
- Stainless steel hardware (included) and tin-plated copper contacts minimize resistance in harsh environments.

Front Face

Part Number	Voltage	Amperage	Cranking Rating 12VDC, 30 Sec	Circuitry	Ingress Rating

## Wiring Configuration

Master Battery Disconnect (shown in ON state)

# MASTER DISCONNECT SWITCH 36-48VDC

The Littelfuse Master Disconnect Switch isolates the batteries and eliminates battery drain when vehicle is stored overnight or for longer periods. Electrically cuts off battery power for safety or when the vehicle is being serviced. Units have a depth of only 75mm (knob front to end of studs), can be installed in locations where behind-panel space is limited.

## Features

- 300A continuous current rating.
- Lockout feature. Padlock capability.
- Switch can be mounted anywhere on the vehicle.
- Plastic construction will not corrode.
- Stands up to road splash and salt spray.
- Ingress protected to IP67/ IP69K.
- Ignition protected to SAE J1171 and ISO 8846 for installation in a battery box or on vehicles carrying hazardous loads.
- Stainless steel hardware (included) and tin-plated copper contacts minimize resistance in harsh environments.

Part Number	Voltage	Amperage	Cranking Rating 12VDC, 30 Sec	Circuitry	Ingress Rating	Feature
880064	48V	300A	1250A (1 x 4/0 cable)	SPST	IP67 / IP69K	Lockout

RELAY + SWITCH

# MASTER DISCONNECT SWITCH 12-48VDC

48V

NEW

IP67

IP69K

The Littelfuse Master Disconnect 2 Pole Switch cuts all battery power from vehicle electrical systems with applications needing switching of two circuits. Can be used to switch two vehicle voltage circuits simultaneously (24V & 12V). Disconnect a battery or multiple batteries, in either the positive or the negative line.

## Features

- 500A continuous current rating per circuit.
- Ingress protection to IP67 and IP69K means that the switch can be mounted in exposed locations on the vehicle.
- Drop-in replacement for competitive Master Disconnect Switches, with higher vibration and shock capabilities.
- Direct lockout/tagout capability in On or Off position, with padlock or hasp.

# BATTERY DISCONNECT SWITCH 24VDC

**NEW**

**IP67**

**IP69K**

250A-500A bipolar disconnect switch with fixed or removable handle. Modern design, made of high performance materials in terms of resistance to high temperatures, chemical and atmospheric agents. This battery master switch represents an evolution of our expertise and is also supplied in up to 500A DC version.

## Features

- Product series features modern advancements in the design evolution of manual battery disconnects.
- Smartkey allows operator to make the handle removable or fixed, locking it in either the OFF or ON position.
- Protective rubber cap with an auto-protection feature ensures dirt protection when the handle is inserted.
- Up to 500A continuous current.
- IP69K rating for high pressure wash.

## Applications

Heavy Trucks    Off-Road    Construction    Material Handling  
Mining Vehicles    Agriculture    Marine    Emergency Vehicles

## TERMINAL CRIMPING TOOL

**PROLEG**

This tool is designed to crimp a terminal and a seal onto a stripped end of an electrical cable.

Part Number  
CT-P78

**Crimps:** Aptiv Delphi Metri-Pack 150 & 280 & Tyco AMP MCP 2.8 terminals.  
**Terminal Gauge Range:** #22 to 12AWG (0.35mm<sup>2</sup> to 3mm<sup>2</sup>)  
**Features:** Parallel jaw design eliminates terminal rocking.  
**Notes:** Suits terminals used with PDM's products including; Littelfuse BPDMA104, PDM3100, PDM2100, Bussmann CFH, 15300, 15400, XTCK4  
**Pack Size:** 1

### Crimping Tool Head Legend

- A :** Crimp Metri-Pack 150 seals
- B :** Crimp Metri-Pack 280 & AMP MCP 2.8 seals
- 1 :** Crimp #22 (0.35mm<sup>2</sup>) terminals
- 2 :** Crimp #20 to #18 (0.5 to 0.8mm<sup>2</sup>) terminals
- 3 :** Crimp #16 to #14 (1.0 to 2.0mm<sup>2</sup>) terminals
- 4 :** Crimp #12 (3.0mm<sup>2</sup>) terminals

## RATCHET TERMINAL CRIMPING TOOL KIT

**PROLEG**

These tools are designed to crimp a terminal and cable seal onto a stripped end of an electrical cable.

**NEW**

### Features:

- Quickly change between different jaw sets.
- Ratchet mechanism with automatic quick release.
- Parallel jaw design eliminates terminal rocking.
- Crimps terminal and seal in one press.

Part Number  
CT-JA18B

### Kit Includes

Quick change ratchet crimper tool (8.7") 220mm  
 H6 Jaw set to suit: (#22 / 20-18AWG) 0.35 / 0.5-0.8mm<sup>2</sup>  
 H7 Jaw set to suit: (#16-14 / 12AWG) 1.0-2.0 / 3.0mm<sup>2</sup>

CT-JA18B pictured with jaw set inserted

**Crimps:** Aptiv Delphi Metri-Pack 280 & Weather Pack terminals.  
**Terminal Gauge Range:** #22 to 12AWG (0.35mm<sup>2</sup> to 3mm<sup>2</sup>)  
**Features:** Parallel jaw design eliminates terminal rocking.  
**Notes:** Suits terminals used with PDM's products including; Littelfuse BPDMA104, PDM3100, PDM2100, Bussmann CFH, 15300 & 15400, XTCK4  
**Pack Size:** 1

### Crimping Tool Set Legend

- H6 Position 1 :** Crimp #22 (0.35mm<sup>2</sup>) terminals
- H6 Position 2 :** Crimp #20 to #18 (0.5 to 0.8mm<sup>2</sup>) terminals
- H7 Position 1 :** Crimp #16 to #14 (1.0 to 2.0mm<sup>2</sup>) terminals
- H7 Position 2 :** Crimp #12 (3.0mm<sup>2</sup>) terminals

H6 Jaw set

## TERMINAL CRIMPING TOOL OEM STYLE

**PROLEG**

Part Number  
06285847

**Crimps:** Aptiv Delphi Pack-Con Series 3 & 5 Terminals.  
Two cavity crimp tool. Spring loaded.  
**Terminal Gauge Range:** # 20 - # 10AWG (0.5mm<sup>2</sup> to 5mm<sup>2</sup>)  
**Notes:** Suits terminals used with Bussmann RTA Autofuse panels 157 series fuse blocks (p 92). Crimps core wings only.  
**Pack Size:** 1

## TERMINAL REMOVAL TOOLS DELPHI APATIV

**PROLEG**

These tools are designed to remove terminals fitted in PDM's, holders or connectors.

Part Number  
I2094429

**Extracts:** Delphi GT 150; GT 280; 150 Metri-Pack; 280 Metri-Pack; 280 Tangless & 280 Bus Bar; 630 Pull-To-Seat; Lamp Socket Bases, B-1 & W-3; 800 Metri-Pack Female.  
**Notes:** As used in Bussmann I5303, I5305, I5401, CFH-A series Power Distribution Modules.  
As used in GEP FRH-A24, PDM-R3AC1, PDM-S3AC1, PDM-U3AC1 Power Distribution Modules.  
As used in Littelfuse BPDMA104, PDM31001 and PDM71001 Power Distribution Modules.  
**Pack Size:** 1

Part Number  
I2094430

**Extracts:** Delphi Pack-Con series 3 & 5 terminals.  
**Notes:** As used in Bussmann RTA 157 series rear terminal fuse blocks (p 92).  
**Pack Size:** 1

## TERMINATED & SEALED CABLES

**PROLEG**

These pre-terminated and sealed cables and jumpers have been designed for quick installation into Power Distribution Modules (PDM's) with cavities that mate with Delphi Aptiv 280 Metri-Pack terminals and seals. They are available in two models: Tangless or Tanged. The dual terminated and sealed jumpers are a quick way to link a mini fuse cavity to a ISO 280 relay cavity. Whilst the single terminated and sealed cables can be used for power or signal applications. The un-terminated end can be joined to other cables simply with a butt splice connector.

Part Number	Product	Termination Type	Cable Specifications	Suit Various PDM's
CAB2.0X85TS1J	Jumper	Dual End, Tangless	Red 1.84mm <sup>2</sup> x 90mm	15303-1 to 15303-6,
CAB2.0X300TS1	Cable Lead	Single End, Tangless	Red 1.84mm <sup>2</sup> x 300mm	15305-1, 15305-2, 15305-3,
CAB2.0X300TS2	Cable Lead	Single End, Tangless	Blue 1.84mm <sup>2</sup> x 300mm	15305-4, 15305-5, 15305-6,

CAB2.0X85TS1TJ	Jumper	Dual End, Tanged	Red 1.84mm <sup>2</sup> x 90mm	BPDMA104, CFH-Axx, FRH-A24, PDM-3AC1, PDM-S3AC1, PDM-U3AC1, PDM-31001, PDM71003 15401, 15402, 15403, 15404
CAB2.0X300TS1T	Cable Lead	Single End, Tanged	Red 1.84mm <sup>2</sup> x 300mm	
CAB2.0X300TS2T	Cable Lead	Single End, Tanged	Blue 1.84mm <sup>2</sup> x 300mm	

**Terminal Type:** Delphi Aptiv Metri-Pack 280  
**Notes:** As used in Bussmann RTMR rear terminal fuse / relay blocks.  
**Pack Size:** 1, 10, 50, 100

Butt Splice  
Connectors (p.188)

## TERMINAL, SEAL AND CAVITY PLUG KITS

**PROLEG**

**NEW**

### Features:

- Suits various models of hard wired power distribution modules.
- Fitted with genuine original equipment components.
- Australian designed & made compartment box. Kitted locally.

## 280 Tangless Female Sealed - 120pcs

**Suits:** Bussmann RTMR's I5305 & I5305 Series

<u>Part Number</u>	<u>Kit Contains:</u>
TERMKIT001	Terminals: 10pcs x 0.8 - 1.0MM
	30pcs x 1.0 - 2.0MM
	10pcs x 2.0 - 3.0MM
	Cable Seals: 10pcs x 2.03 - 2.85MM Green
	30pcs x 2.81 - 3.49MM Grey
	10pcs x 3.45 - 4.3MM Blue
	Cavity Plugs: 20pcs x 6.7MM Green

## 280 Tanged Female Sealed - 170pcs

**Suits:** GEP Power PDM's 280 Style  
Littelfuse HWB18 & HWB60

<u>Part Number</u>	<u>Kit Contains:</u>
TERMKIT002	Terminals: 10pcs x 0.8 - 1.0mm
	40pcs x 2.0 - 3.0mm
	20pcs x 5.0mm
	Cable Seals: 10pcs x 2.03 - 2.85mm Green
	40pcs x 2.81 - 3.49mm Grey
	20pcs x 3.45 - 4.3mm Blue
	Cavity Plugs: 30pcs x 6.7mm Green

## 280 Tanged Female Sealed - 310pcs

**Suits:** GEP Power PDM's 280 Style  
Bussmann RFMR's I54 Series

<u>Part Number</u>	<u>Kit Contains:</u>
TERMKIT003	Terminals: 20pcs x 0.8 - 1.0mm
	70pcs x 2.0 - 3.0mm
	40pcs x 5.0mm
	Cable Seals: 20pcs x 2.03 - 2.85mm Green
	70pcs x 2.81 - 3.49mm Grey
	40pcs x 3.45 - 4.3mm Blue
	Cavity Plugs: 50pcs x 6.7mm Green

## MCP 2.8 Tanged Female Sealed - 170pcs

**Suits:** Bussmann RTMR I5310 Series

<u>Part Number</u>	<u>Kit Contains:</u>
TERMKIT004	Terminals: 30pcs x 0.5 - 1.0mm
	40pcs x 1.5 - 2.5mm
	Cable Seals: 30pcs x 1.5 - 2.1mm Blue
	40pcs x 2.2 - 3.0mm White
	Cavity Plugs: 30pcs x 6.7mm Natural

# INSULATED HEAT SHRINK BUTT SPLICE CONNECTORS

**PROLEG**

Perma-Seal splices provide a rugged, environmentally sealed connection for wire sizes that will insulate, seal and protect joints from physical abuse and abrasion, water, salt and other corrosive compounds.

Part Number	Connector	Wire Gauge	Colour	A (mm)	B (mm)	C (mm)
19164-0013	Butt Splice	22-18AWG	Red	15	39.4	4.7
19164-0044	Butt Splice	16-14AWG	Blue	15	39.4	4.95
19164-0056	Butt Splice	12-10AWG	Yellow	15	45.7	6.99

**Voltage:** Maximum 600V

**Barrel Type:** Closed

**Material Plating - Mating & Termination:** Tin

**Material Metal:** Copper **Insulation:** NiAc™

**Temperature Range Operating:** -55°C to +125°C

**Wire Insulation Diameter:** 5.97mm max.

**Pack Size:** 10, 50, 100, 500

**1/. Insert both cables & crimp**

**2/. Apply heat to seal**

# MALE & FEMALE PVC INSULATED DISCONNECTS

INFORMATION

Fuses are current sensitive devices and selected to be the weakest link in the circuit. Circuit protection is provided when the fuse link melts and safely interrupts the over current demand. The key criteria to judge the performance of a fuse is the time versus current characteristic curve. This curve can be used to match the fuse with the anticipated over current load expected in the application.

## Types of Over Current

**Short Circuit:** A short circuit is a current condition that greatly exceeds the rating of the device. It is caused when a malfunction or accident creates a break in the normal path allowing electricity to flow directly to ground. This shorter current path bypasses the resistance offered by the circuit components connected in the normal current path. In this situation, there is virtually no resistance to impede the current and the current will build to a level where the heat generated can cause insulation or equipment breakdown.

**Overload:** An overload is an over current that is within the normal current path. Overloads occur when the current exceeds the value for which the equipment or associated wiring is rated. This typically occurs when too many devices are connected to the circuit or when a device connected to the circuit malfunctions. Sustained overloads may slowly cause overheating of the wiring and the components. The circuit protection device must open before these types of overloads cause damage.

## Selecting Over Current Protection

During normal conditions, an over current protection device must carry the current without nuisance openings. However, when an overload or short circuit occurs, the device must interrupt the over current and withstand the voltage across the device after arcing. To properly select an over current device, the following items must be carefully considered:

**Voltage Rating:** Represents the maximum system voltage present in the circuit in which the over current device is installed. The system voltage should not exceed this value for proper operation of the device during an over current event.

**Current Rating:** This is the ampere value marked on the circuit protection device. It is established by the manufacturer as a value of current which the device can carry, based on a controlled set of test conditions. The current rating of a fuse is typically de-rated by 25% to ensure continuous operation in an ambient temperature of 25°C and avoid nuisance blowing. Example: A fuse with a current rating of 10A is usually recommended for operation at no more than 7.5A (10A x 0.75) based on an ambient temperature of 25°C. If the ambient temperature is higher, a re-rating must be calculated as per the section below.

**In-rush Characteristics:** During the operation of protected equipment, system current can significantly vary. This is particularly evident when motor or other inductive loads in the circuit cause large current surges during start-up or shutdown. A time-delay fuse should be used in applications where in-rush currents are possible.

## Re-rating For Ambient Temperature

The current carrying capacity tests of fuses are performed at 25°C and will be affected by changes in ambient temperature. At higher ambient temperatures, a fuse will respond faster to a given overload. Conversely, at lower ambient temperatures, a fuse will respond slower to a given overload. Selecting the correct fuse for higher or lower ambient temperatures requires the use of an *ambient temperature re-rating chart*. These charts vary by product and manufacturer ie. a slow acting fuse will have a different re-rating curve to a fast acting fuse.

**Example:** We need to select the correct fast-acting fuse for a circuit with a normal operating current of 15A and an ambient temperature of 105°C.

The formula below uses a 105°C re-rating factor of 0.88 (read from the chart on the right) and the standard 25°C de-rating factor of 0.75

$$\frac{\text{Normal Operating Current}}{\text{Re-rating} \times \text{De-rating}} = \frac{15A}{0.88 \times 0.75}$$

The fuse rating we require is: 22.73A at 105°C.

## Thermal Circuit Breakers

The basic components of a thermal circuit breaker are the composite alloy reed, two precious metal contacts and the interconnecting terminals. When an over current occurs, heat is generated as the current flows through the reed causing the reed to deflect and snap open. This separates the contacts and safely interrupts the current flow. Two important parameters used to judge the performance of thermal circuit breakers are the time versus current characteristic curve, similar to the fuse, along with the speed at which the contacts snap open. The relative speed at which the contacts separate is a measure of the cycle life under electrical loading demands.

## Types Of Thermal Circuit Breakers

In contrast to fuse links, thermal Circuit Breakers are resettable. There are SAE definitions for the different types of thermal circuit breakers. Four different reset operational methods are generally available. Type I, Type II, Type III and Type III\* .

**Type I (Automatic Reset):** Cycles or continuously resets until the fault is corrected. Type I circuit breakers are typically used to protect circuits which occasionally experience momentary overloads such as wiper motor and headlamp circuits where a self resetting device is preferred. They are not designed for long term cycling. It is recommended they are installed downstream of a main fuse, manual reset breaker or momentary switch.

**Type II (Modified Reset):** Non-cycling. Once tripped, the open circuit condition is maintained, except for a low milliamp draw through the resistor. The circuit breaker resets when power is turned off. Requires a minimum voltage/current to maintain open circuit. Type II circuit breakers are typically used in applications where fuse replacement is objectionable, such as power window, seat and sunroof circuits.

**Type III (Manual Reset):** Non-cycling. Manually resettable circuit breakers remain in the open position until a button, lever or other external reset device is manually depressed to re-engage the circuit. Type III circuit breakers are typically used in applications where a manual reset is desired for safe diagnosis of a circuit fault.

**Type III\* (Manual Reset - Push to Trip):** Same as a Type III manual reset breaker however the user can press a button on the breaker to open the circuit manually.

**Type III\* (Manual Reset - Switchable):** Same as a Type III manual reset breaker however the user can open the circuit by moving an external switch lever to the OFF position. This same lever can be used to re-engage the circuit by moving the lever back to the ON position, just like a switch.

**Type I**  
Automatic Reset  
(The breaker will reset automatically)

**Type II**  
Modified Reset  
(Switch Power Off / On To Reset)

**Type III**  
Manual Reset  
(Push Button To Reset)

**Type III P.T.T**  
Manual Reset  
(Push Button To Trip Move Lever To Reset)

**Type III Switchable**  
Manual Reset  
(Moveable Lever)

INFORMATION

## Match Wire Gauge To Fuse

In order to protect wiring under all overload and short circuit conditions, it is necessary to standardize the fuse and wire selection process. Fuses have controlled opening characteristics and each wire gauge has its respective current carrying capacity. Fuses need to be selected to always protect the wire insulation from damage. In the selection of wire gauge at various ambient temperatures, it is important to consider the worst case or highest ambient temperature for the application. Wires derate to a much higher degree than fuses, because wire insulation temperature capability is affected much more severely.

Littelfuse provide the following table advising the recommended maximum continuous current rating for the size of wire based on the type of insulation (either GXL or GPT) and the ambient temperature (25°C, 80°C or 105°C).

Wire Size				Maximum Continuous Current (Amperes)				
AWG	B&S	mm <sup>2</sup>	mm (dia.)	At 25°C		At 80°C		At 105°C
				GXL	GPT	GXL	GPT	GXL
-	-	0.3	0.62	15	10	11	4	9
20	-	0.5	0.81	21	15	16	6	13
-	-	0.75	0.98	27	21	20	7	17
18	-	0.8	1.02	31	22	23	7	19
16	-	1.0	1.29	33	23	25	9	20
15	-	1.5	1.45	43	30	33	12	27
14	-	2.0	1.63	50	36	37	14	32
13	-	2.5	1.83	60	42	45	15	38
12	-	3	2.05	68	47	51	18	42
-	-	4	2.26	80	56	61	22	50
10	-	5	2.59	90	65	68	23	58

8	8B&S	8	3.26	125	87	96	30	79
-	-	10	3.57	146	103	111	40	90
6	6B&S	13	4.12	170	120	129	47	105
4	-	19	5.19	221	156	166	61	137

## Wire Size Definitions:

American Wire Gauge or AWG for short (used within the US) - is the standard method denoting wire diameter. Measuring the diameter of the conductor (the bare wire) with the insulation removed. AWG is sometimes also known as Brown and Sharpe (B&S) Wire Gauge. Whilst countries outside of the US use a metric measurement ie mm<sup>2</sup> = Millimetres Squared.

## Wire Insulation Types SAE J-1128:

**GXL** : General purpose cross link polyethylene insulation wire with a maximum insulation temperature of 155°C. Type GXL automotive primary wire is the most common type. It works with most standard automotive wire connectors and may be applied in engine compartments where higher heat resistance is required according to SAE J-1128. GXL automotive wire is thin-walled, giving it a small diameter for hard-to-fit areas in trucks and trailers. Its recommended temperature range is -51°C to 125°C.

**GPT** : General purpose thermoplastic insulation wire with a maximum insulation temperature of 90°C. Type GPT automotive wire is intended for use whenever SAE J-1128 specifies general circuit wiring. GPT automotive primary wire features extruded insulation and has a recommended temperature range of -40°C to 80°C.

## Maximum Allowable Amperage Of Conductors Under 50 Volts (Per SAE J-378)

Wire Size			Temperature Rating of Conductor Insulation					
			80°C		105°C		125°C

## INGRESS PROTECTION (IP) RATING

The Ingress Protection rating is a two-digit number used to rate the degree of protection provided against the intrusion of solid objects (including body parts like hands and fingers), dust, accidental contact and water in mechanical casings and with electrical enclosures. The first digit represents protection against ingress of solid foreign objects. The second digit represents protection against harmful ingress of water. The higher each rating, the more protection is offered as shown in tables below.

Value	Protection from SOLIDS
X	No protection.
1	Protected against solid objects over 50mm e.g. hands, large tools etc.
2	Protected against solid objects over 12.5mm e.g. fingers, tools etc.
3	Protected against solid objects over 2.5mm e.g. screwdriver, thick wires etc.
4	Protected against solid objects over 1.0mm e.g. thin wires, screws etc.
5	Dust Protected. Limited protection against dust ingress (no harmful deposit).
6	Dust Tight. Totally protected against dust ingress.

Value	Protection from WATER
X	No protection
1	Protected against vertically falling drops of water. Should have no harmful effect.
2	Protected against vertically dripping water at any angle of up to 15° from the vertical. Should have no harmful effect.
3	Protected against water spray at any angle up to 60° from the vertical. Should have no harmful effect.
4	Protected against water splashing against the enclosure from any direction. Should have no harmful effect.
4K	Splashed water, at high pressure, only for road vehicles.
5	Protected against low pressure water jets from any direction. Should have no harmful effect.
6	Protected against high pressure water jets from any direction. Should have no harmful effect.
6K	Powerful water jets, at high pressure (flooding), only for road vehicles
7	Protected against harmful effects of 30 min. immersion in water at depth of 15cm (top of device) to 1M (bottom of device).
8	Protected against continuous immersion in water at a depth and conditions specified by the manufacturer.
9K	For pressure / steam jet cleaning, only for road vehicles.

**IP67** Example Catalogue Symbol For IP Rating

The following table lists a range of standard Imperial bolts including the number of threads per inch according to each of the different standards. Metric bolts are also listed based on closest matching diameter. Metric bolts are not equivalent to Imperial bolts. To ensure proper fit, a bolt must be threaded into a nut of the same type. ie UNC 1/4" bolt with a UNC 1/4" nut. However, if you wanted to bolt down a product that is specified with an M8 hole size, you could use either an M8 bolt or a 5/16" bolt, as they both require a hole size approximately 8mm in diameter.

IMPERIAL BOLTS						METRIC BOLTS		
Size (IMP)	Size (MM)	BSW (TPI)	BSF (TPI)	UNC (TPI)	UNF (TPI)	Size (MM)	Metric Coarse (Thread Pitch)	Metric Fine (Thread Pitch)
#6	3.5	-	-	32	40	M3.5	0.6	0.35
#8	4.2	-	-	32	36	M4	0.7	0.5
3/16"	4.8	24	32	24	32	M5	0.8	-
#10	4.83	-	-	24	32	-	-	-
#12	5.5	-	-	24	28	-	-	-
1/4"	6.4	20	26	20	28	M6	1.0	-
5/16"	7.9	18	22	18	24	M8	1.25	1
3/8"	9.5	16	20	16	24	M10	1.5	1.25
7/16"	11	14	18	14	20	-	-	-
1/2"	13	12	16	13	20	M12	1.75	1.5
9/16"	14	12	16	12	18	M14	2.0	1.5
5/8"	16	11	14	11	18	M16	2.0	1.5
3/4"	19	10	12	10	16	M20	2.5	2.0
7/8"	22	9	11	9	14	M22	2.5	2.0
1"	25	8	10	8	12	M24	3.0	2.0
1-1/8"	29	7	9	7	12	M30	3.5	3.0
1-1/4"	32	7	9	7	12	M33	3.5	3.0

**Abbreviations:**

BSW = British Standard Whitworth.  
BSF = British Standard Fine.

IMP = Imperial.  
TPI = Number of threads per inch.

UNC = Unified National Coarse.  
UNF = Unified National Fine.  
MM = Millimeter.

## CALCULATING WATTS, AMPS & DC VOLTAGE

It is simple to calculate either DC Volts, Watts or Amps provided you know the other 2 values. Just use the appropriate formula as shown below;

Unknown Value	Known values	Example	Answer
Watts =	Amps x Volts	2A x 12Vdc	= 24W
Amps =	Watts / Volts	24W / 12Vdc	= 2A
DC Volts =	Watts / Amps	24W / 2A	= 12Vdc

## IGNITION PROTECTION

IGNITION  
PROTECTED

An electrical device that has been certified Ignition Protected is suitable for use in marine engine compartments and fuel tank spaces. There are generally two test standards accepted by the Marine Industry – SAE J1171, External Ignition Protection of Marine Electrical Devices and UL1500, Ignition- Protection Test for Marine Products. The requirements and test procedures for the two standards are similar. Essentially, three test results will allow a device to be certified IGNITION-PROTECTED.

1. The device or component is constructed so that a defined flammable hydrocarbon mixture surrounding the device will not ignite if a normal electrical arc, spark or heat source ignites the mixture inside the device.
  2. Under the conditions of item 1, the device or component has insufficient energy to ignite the mixture inside the device.
  3. Under the conditions of item 1, the source of ignition is hermetically sealed from the surrounding mixture.
- An Ignition- Protected device is not necessarily Explosion-Proof. Explosion-Proof devices are as applied to U.S. Coast Guard inspected vessels or as defined by the National Electric Code.

## Retail Clamshell - Single Cavity

## Counter Displays Modular Multi Peg

## Assortment Trade Kit

## Multi Cavity

## Poly Bag

## DIY Boxed Kit

## Retail Clamshell Packaging Index

The packaging index below lists the product types and pack quantities that are available in clamshell packaging. To order these products in blister packaging just add the SP or AP suffix to the part number.  
ie. To order a 5pc 'Spare Pack' of a 10A Minifuses (on page 15), use the part number: MIN010SP.  
ie. To order a 5pc 'Assortment Pack' of Minifuses (on page 15), use the part number: MIN000AP.

# AUTOMOTIVE BATTERY TERMINAL TYPES

**TOP POST**  
Cone Shape

**SIDE TERMINAL**  
Threaded Terminal  
3/8"-16  
Positive & Negative

**FLAG TERMINAL**  
Nut and Bolt Fixing

**FASTON TERMINAL**  
Quick Connect Terminal  
F1 4.8mm, F2 6.35mm

# BATTERY PAIRING

**Wired in Parallel**

Combine batteries in parallel to create a battery bank to increase your storage power.

**Wired in Series**

Combine 2 x 12V batteries in series increases your voltage to 24V.
